<u>Zoning Approval Sought:</u>	SZO §4.4.1
<u>Date of Application:</u>	February 22, 2018
<u>Date(s) of Public Hearing:</u>	4/18/18, 5/2/18
<u>Date of Decision:</u>	May 2, 2018

Appeal #ZBA 2018-24 was opened before the Zoning Board of Appeals in the Visiting Nurse Association (VNA), 3rd floor Community Room, 259 Lowell Street, Somerville, MA. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. After one hearing of deliberation, the Zoning Board of Appeals took a vote.

I. DESCRIPTION:

The proposal is to reconstruct and enlarge the roof with two dormers and extend the length of roof over the front porch.

II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, front yard setback, and right side yard setback.

The proposal will impact the following nonconforming dimensions: front yard and left side yard setback. The current dimensions for such are 13.7 feet and 7.5 feet respectively and will remain at their current dimensions as a result of the proposed work. The requirements are 15 feet and 8 feet respectively. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that "[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5."

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal will allow for the homeowner to make adequate headspace in the attic to increase living area in the single family dwelling. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for lot area per dwelling unit, ground coverage, landscape area, pervious area, floor area ratio (FAR), building height, and rear yard setback will continue to be conforming to the requirements of the SZO.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of

Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; to lessen congestion in the streets; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to conserve the value of land and buildings; to adequately protect the natural environment; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RA district, which is, “to establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Surrounding Neighborhood: East Albion Street is a residential street. This particular stretch of East Albion Street has a steep slope that the 2.5 story structures are built into.

Impacts of Proposal (Design and Compatibility): The proposal does not change the character of the building and its design will be compatible with the neighborhood.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.
