Appeal #ZBA 2018-14 was opened before the Zoning Board of Appeals in the Visiting Nurse Association, 3rd Floor Community Room, 259 Lowell Street, Somerville, MA. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. After one hearing of deliberation, the Zoning Board of Appeals took a vote.

**I. DESCRIPTION:**

The proposal is to construct a roof deck above the rear two-story flat roofed portion of the structure.

**II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, lot area per dwelling unit, landscaped area, pervious area, front yard setback, rear yard setback, left side yard setback, and street frontage.

The proposal will impact the nonconforming dimensions of the rear yard and left side yard setbacks. The current rear yard is 14.4 feet and the requirement in the district is 20 feet. The current left side yard is 1.3 feet and the requirement in the district is 8 feet. The proposal to place a railing on the roof within the required setbacks will not increase the existing nonconformities. However, it is considered to be an alteration to a nonconforming structure that requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that “[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5.”

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal will allow the occupants of Unit #2 to access a roof deck off of their unit. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for ground coverage, floor area ratio (FAR), building height, and right side yard setback will continue to be conforming to the requirements of the SZO.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and*

*specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles.”*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; to lessen congestion in the streets; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to conserve the value of land and buildings; to adequately protect the natural environment; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RB district, which is, “to establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses.”*

*Surrounding Neighborhood*: The subject site is located on the dead end portion of Knowlton Street and is within close proximity to the Capuano Early Childhood Center. The immediate area is residential in nature.

*Impacts of Proposal (Design and Compatibility)*: The proposal will have minimal visibility form Knowlton Street. The railing system is proposed to be galvanized iron, painted black.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.
