

PUBLIC MEETING

Combined Sewer Overflow (CSO) Control Planning Update for the Charles River and Alewife Brook/Mystic River

Did you know that flooding from river waters can be contaminated with bacteria and other pollutants that can be bad for your health?

The Cities of **Cambridge** and **Somerville** are collaborating with the **Massachusetts Water Resources Authority** to learn from you!

Join us for the first joint public meeting to understand the quality of nearby rivers, have a voice in how improvements are made, and get involved in the CSO Control Planning process.

We want to hear from you and learn how these rivers are used and impact your life.

Meeting interpretation will be available in Amharic, Bengali, Haitian Creole, Portuguese, and Spanish. The presentation materials and recording will be made available in additional languages following the meeting.

6PM

Wednesday June 29, 2022
