Alderman: Jesse Clingan

Legal Notice: Applicant/Owner, 448 Medford Street, LLC, seeks a Special Permit under SZO §4.4.1 to alter a nonconforming structure by constructing a dormer within the nonconforming right side yard. RB Zone. Ward 4.

<u>Zoning District/Ward:</u>	RB Zone. Ward 4.
<u>Zoning Approval Sought:</u>	§4.4.1
<u>Date of Application:</u>	June 29, 2018
<u>Date(s) of Public Hearing:</u>	August 8, 2018
<u>Date of Decision:</u>	August 8, 2018
<u>Vote:</u>	5-0

Appeal #ZBA 2018-91 was opened before the Zoning Board of Appeals in the Aldermanic Chambers, Somerville City Hall, 93 Highland Ave, Somerville, MA. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. On August 8, 2018, the Zoning Board of Appeals took a vote.

I. DESCRIPTION:

The proposal is to construct a dormer on the right side of the ridge to provide for adequate head height for the stairs leading to the attic.

II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, landscaped area, pervious area, floor area ratio (FAR), and the rear and right side yard setbacks.

The proposal will impact the nonconforming dimension of the right side yard, which is currently 2.5 feet and will not change as a result of the construction of a dormer. The requirement in the district is 8 feet in the RB district. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that “[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5.”

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal will allow for adequate head height in the stairs leading to the attic. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for lot area per dwelling unit, ground coverage, building height, and front and left yard setbacks will continue to be conforming to the requirements of the SZO.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; to lessen congestion in the streets; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population;

to conserve the value of land and buildings; to adequately protect the natural environment; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RB district, which is, “to establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Surrounding Neighborhood: The subject property is located on the southwestern side of Medford Street between the blocks of Bartlett Street and Central Street. The block of Medford Street is residential and includes single, two-, and three-family dwellings.

Impacts of Proposal (Design and Compatibility): The proposed dormer will have a minimal impact on the overall design and compatibility of the structure. The dormer will stick out of the roof 2’-5” high and will not contain a window.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.
