DESCRIPTION:

The proposal is to construct an addition in the rear above the existing one-story portion of the building that is currently within the required left side yard setback. The dwelling will remain a single family and have three bedrooms.

FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. **Information Supplied:**

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. **Compliance with Standards:** *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, left side yard setback, right side yard setback, and street frontage.

The proposal will impact the nonconforming left side yard setback dimension of 2.2 feet by creating an upward extension of the existing one story portion of the building. The proposed addition will be tapered one foot from the edge of the existing first story so that the edge of the wall is 3.2 feet from the left property line. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that “[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5.”

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for lot area per dwelling unit, ground coverage, landscape area, pervious area, floor area ratio (FAR), building height, front yard setback, and rear yard setback will continue to be conforming to the requirements of the SZO.

3. **Consistency with Purposes:** *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; to lessen

congestion in the streets; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to conserve the value of land and buildings; to adequately protect the natural environment; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RA district, which is, “to establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Surrounding Neighborhood: The subject property is located on Moreland Street on the block between East Albion Street and Meacham Street. There is a particular stretch of cottage bungalow style homes that the subject site is a part of.

Impacts of Proposal (Design and Compatibility): The proposed addition will be in the rear of the dwelling and will not be visible to much from the public way. The houses are close enough together on this stretch of Moreland Street that there is a small view shed from Moreland Street where this addition is viewable from. The applicant is proposing to replace the existing vinyl siding on the whole house with new vinyl siding. Staff recommends a condition that the siding be replaced with a more high quality material such as cementitious siding, which has durability and aesthetics benefits compared to vinyl.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods and preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups.

DECISION:

Special Permit under §4.4.1

Present and sitting were Members Orsola Susan Fontano, Richard Rossetti, Elaine Severino, Danielle Evans, Josh Safdie, Anne Brockelman, and Pooja Phaltankar. Upon making the above findings, Richard Rossetti made a motion to approve the request for a **Special Permit**. Elaine Severino seconded the motion. Wherefore the Zoning Board of Appeals voted **5-0** to **APPROVE** the request. In addition the following conditions were attached:
