

Union Square Neighborhood Council

What is it?

The redevelopment that will transform our neighborhood is just beginning. Residents, business people, and city officials have been working together to plan a Neighborhood Council to influence this transformation.

Mission: To help shape the future of Union Square as an increasingly inclusive and vibrant neighborhood and commercial center built around the aspirations of the people who live and work here.

Goals: Build community, empower its members, increase economic opportunity, steward the environment and public realm, and represent ourselves in the development process.
