Archetype X

Verse 1

Archetype X why were you born
To torment me to be my Denna
With ocean-eye and fair complected
Archetype X why were you born

Pre-Chorus

Easy charm, flies to honey
All your streets are paved with gold

Chorus

Archetype X why were you born
I want to know you
While you were on your own
What did you learn
I want to know your truth

Verse 2

Archetype X why were you born
To challenge me and be my teacher
When all your beauty starts to fade
Archetype X where will you go

Pre-Chorus

Your mask will fade, the truth uncovered
How will you look when you've grown old

Chorus

Archetype X why were you born
I want to know you
While you were on your own
What did you learn
I want to know your truth

Rain

Verse 1

I've got a secret
I think that I'll keep it
All to myself
I'll tell no one else
I've been living in fiction
My own self-infliction
Keeps weighing me down
I fear I might drown

Chorus/Hook

Rain (x10)

Verse 2

I need to get high,
I can't sleep at night
Confined in my head
Watch the world go on by

Chorus

Rain (x10)

Bridge:

The rain will leave you
Diseased dead denied
If only I could warn you
But I'm pent up inside

Chorus

Rain (x10)
