

"The Other Side"

Ashley Braga

1st Verse

It's 6am and I'm asleep
the alarm begins my days reality
My minds at peace till I'm awake
and the day will start as it does everyday

2nd Verse

Shuffle my way across the room
turn on the radio pick a perfect tune
Make up my face to look alive
try to catch the bus that always drives right by

Chorus

Another day, another headache, yeah
where's my coffee, place it in my hand
the time is ticking and I am thinking
the grass is greener on the other side
cause I don't think this side feels right
No, I don't think this side feels right

3rd Verse

A smile stapled on my face
Walking around in a constant daze
it's not fair to be so disengaged
the sun is out but I'm standing in the shade

Chorus

Hook

Ohhh, get me out of here
I want to run without fear
but if the other side, isn't what I fantasized
then I'm stuck here

Chorus
