

With you

Lyrics

VERSE

Not quite a happy ending  
But we both knew that There Will Be Tears  
What's the point of defending  
Since we both did wrong can't go nowhere

She said you might come in handy  
Got my emotions mixed got me ~~fucked~~ up now  
She knows we must be trendy  
We'll keep this up like we took a vow

CHORUS

Oh please don't turn up  
Baby don't turn up  
Baby don't turn up  
I talk in colours you talk in follows my lady  
Turn up  
Baby don't turn up  
Baby don't turn up  
I'll never ever turn up with you

VERSE

Really wanna spend time with you  
But things are keeping us from it  
Thought it over cuz I needed to  
It made too much sense but I still couldn't play it cool

I gave you everything  
What I got back I'll live with it  
I'll let the memories fade  
Don't have to listen to me, I'll let you phrase it

CHORUS
