

# “Wrong With Me”

Jeremy Voltz

## VERSE 1

You know the pressure is on  
And strong enough to feel it  
I got the shiver and shake  
That takes you when the lights go out

And if you're trying to say  
My way leaves you reeling  
Well cause it's me  
I won't see the forest for the trees

## PRECHORUS

So let me think a minute  
Let me think a minute  
Let me think a minute  
Oh woah woah woah

## CHORUS

**Tell me is there something that's wrong with me  
Cause everything is harder than it seems  
Tell me is there something that's wrong with me  
Cause nothing really happens in my dreams**

## VERSE 2

I gotta put it to bed  
This head full of demons  
It keeps rumbling on  
Till dawn when the sun comes up

And in the light of day  
My way is looking clearer  
But just cause I see  
It doesn't mean that I really believe

## PRECHORUS

## CHORUS

## BRIDGE

Wake up in the morning with get-up-and-go  
Sink back to the bottom with the undertow  
Dim the lights, soft nights, with a warm glow  
You've got to go with the flow, don't let your seems show

## CHORUS (x2)
