

Tell me whatcha want baby anything you say
Whatever it is darling I will find a way
Way way way eh
A way

I'm missing your love I don't want to be alone
I need to feel your touch need to hear you on the phone
Oh oh oh oh
Bring me home

I will build a bridge back to you (hey)
Maybe climb a mountain or two (hey)
Oh oh oh oh oh
Oh oh oh oh oh
Oh oh oh oh oh
Right back to you
I will cross the big ocean blue (hey)
Fly a rocket over the moon (hey)
Oh oh oh oh oh
Oh oh oh oh oh
Oh oh oh oh oh
Right back to you oh oh oh
Right back to you oh oh oh
Right back to you oh oh oh
Right back to you oh oh oh

You're the only thing that can make me feel alive
Heal me when I'm hurt, hold me all throughout the night
I I I I
Anytime

Stay right where you are I am coming right away
As fast as I can 'cause I need to see your face
Eh eh eh eh
I'm on my way

(Chorus)

Miles and miles away miles and miles away
But you're still my babe but you're still my babe
Whatever I do whatever I do
Coming back to you coming back to you

Tell me whatcha want baby anything you say
Whatever it is darling I will find a way

**Way way way eh
I'm on my way**

**Right back to you oh oh oh
Right back to you oh oh oh
Right back to you oh oh oh
Right back to you oh oh oh
Right back to you**
