C G

We haven't talked in quite some time

Am F

Am G

Can't you say what on your mind,
today?

I can tell that something's wrong
You got friends who'll help along
Your way

Dm Am G

F

You have got the strength to make a
change
You know too well the path that leads to
danger

CHORUS:

C Em Am F

Remember when it's cold and dark
And you think that there's no way out of
your plight

G F G

We'll be lighting your way

C | G | C | Am | G

I got scars on my heart too
Together we'll make it through, this time

I know you think that you've been
wronged

And the world is all to blame

For your grief, but believe

Dm Am G F

You have got the strength to carry on
The challenges you're ready to take on

CHORUS

A

People that that you know

F#m

Make choices as they go

G A

You will make your choices too

F#m

We want you to succeed

G

Not to follow but to lead

A

G

With love that will never fail you

CHORUS
