[Verse 1]

Pretty boys, pretty girls turn to lovers
Picture perfect dreams and so much to prove
But that ain't us, we ain't like the others
Living for tonight with nothing to lose

[Pre-Chorus 1]

Now we're driving on this open road
God knows where we're going now that we're alone
If you wanna take the long way home
I can take you anywhere

[Chorus]

No matter what happens, babe, I just wanna be with you
When diamonds rain on the avenue
In a perfect sky, shooting stars are passing by
Two broke lovers, oh
Diamonds rain when you're with me, baby, diamonds rain
No matter what happens babe, I just wanna be with you
When diamonds rain on the avenue

[Verse 2]

Beautiful like waves on the ocean
Nothing in the world can stop you and I
Here in the starlight, you know
Anything we want is ours tonight

[Pre-Chorus]

If you wanna take the long way home
I can take you anywhere

[Chorus]

No matter what happens, babe, I just wanna be with you
When diamonds rain on the avenue
In a perfect sky, shooting stars are passing by
Two broke lovers, oh
Diamonds rain when you're with me, baby, diamonds rain
No matter what happens babe, I just wanna be with you
When diamonds rain on the avenue

[Bridge]

Diamonds raining, diamonds raining
Diamonds rain when you're with me

[Chorus]

No matter what happens, babe, I just wanna be with you
When diamonds rain on the avenue
In a perfect sky, shooting stars are passing by
Two broke lovers, oh
Diamonds rain when you're with me, baby, diamonds rain
No matter what happens babe, I just wanna be with you
When diamonds rain on the avenue
