

SAW THE SUN LYRICS

Intro: 4 bars, then 4 bars of 'DUN'

Trying to fall asleep, tossing and turning under my sheets,
corner streetlights by my window.
Feeling that awful need, the need to be somewhere doing a thing,
all I want to do it lie here.

Bitter like the winter sky, bitter like winter sky.

I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun

Lost sight of what I want, not missing out on useless fun,
wasted my time now I got nowhere to run.
Clouds stretch out in front of me, I'm holding out for the sun to come,
Tops of the trees are telling me: 'you ain't climbed high enough yet'.

I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun

Bitter like the winter sky, bitter like the winter sky.

SOLO

I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun
I saw the sun saw the sun saw the sun

Bitter like the winter sky, bitter like the winter sky,
Bitter like the winter sky, bitter like the winter sky.
