

BLEED

Verse

What you said to me
Cut to my bone
Seeing my memories endlessly flash in the dark all alone
I can't watch no more
Yet can't look away
Slowly cementing ourselves in this mess that we can't wash away

Mid Instrumental

Bsus **F#min**

Verse

So you've done it
So I push you away
But it's there coursing down through my veins
And that's where it stays

Chorus

Bmin **C#7** **F#min** **A**

But don't you know, I bleed
When you Cut me Down
And don't you know
I'm bruised
When you leave
Oh, you're so caught up in your misery spinning around
Trying to recover but you're draining me out
Cuz I bleed

Verse

I'm a child
Much like before
But thought I had been punished
Was enough but the words are no longer yours
But what do you expect from me
To wipe up your floor
Your life it's not just yours
You claim to put me first
You shouldn't be so Torn

Chorus

Bridge

So, Why won't you listen to the words that you say
I can't keep pouring myself Into You
Finding my way on this same path that we lay why can't we
Change
Why can't we
Change, Change, Change

Chorus

I bleed too
