

Deliver Me

Jeffery Straker / Royal Wood / Lawrence Katz

I've been waiting for the truth to come, I been down on bended knees
I been looking for the way to go home now, baby please deliver me

Chorus

Only love, love, is enough, is enough
Only love, love, please deliver me

I been out alone for so long, I been lost at every turn
I been searching for the one to get me through now, baby please deliver me

Chorus

I recall when words were spoken, they're just echoes in my head
Now I'm feeling for the broken, baby please deliver me

Chorus
