

Ladder to the moon

Written By: Ashley Braga

Verse 1:

There once was a girl
with a sparkle in her eye
looking for some answers
always asking why

Verse 2:

She saw the world full
of possibilities
anything she dreamed
she believed she could achieve
and sang...

Chorus:

I'll build a ladder to the moon
made of hockey sticks and bubble gum
Chocolate bars and sugar plums
and when I get there I will call for you
What if became the first kid on the moon

Verse 3:

She had a little book
with drawings of her plans
martians she would meet
would shake her by the hand

Verse 4:

Offer her some cheese
as they sat amongst the stars
and played together
with jupiter and mars
and sang...

Chorus:

I'll build a ladder to the moon
made of hockey sticks and bubble gum
chocolate bars and sugar plums
and when I get there I will call for you
what i became the first kid on the moon

Hook:

Climb, climb, climb, climb, climb!
Before I get there I will pack
a sweatre and a yummy snack
a telescope to see way down below
and when I've seen enough
I'll come back home
and sing...

Chorus:

I'll build a ladder to the moon
made of hockey sticks and bubble gum
chocolate bars and sugar plums
and when I get there I will call for you
what if become the first kid on the moon
I'll become the first kid on the moon
