

## SUGA ' BUSH

1. Waking from a dream with you  
We were walking through the forest  
The river running past us  
Like it had seen the last of us
2. In the dream it was dark  
The path right before us  
We were far away from kind of things  
That make people stay

**Chorus:** Gonna sleep in a suga' bush  
Gonna sleep in a suga' bush  
Gonna sleep in a suga' bush  
Tonight

3. I heard the mournful sound  
Of a train running through the dark  
Clickity-clack of the wheels  
As it rolled past the park
4. Knew they were homeward bound  
The engineer keeping time  
Passengers all asleep  
Their cozy dreams in line

**Chorus:** Gonna sleep in a suga' bush  
Gonna sleep in a suga' bush  
Gonna sleep in a suga' bush  
Tonight  
Tonight, tonight, tonight.

5. I dreamed I was with you  
But couldn't see your face  
It was dark  
And I didn't know the place
6. But it didn't matter  
Cause it was alright  
Bears and mountain lions  
Swaying pines between, the moon was tight

**Chorus:** Gonna sleep in a suga' bush  
Gonna sleep in a suga' bush  
Gonna sleep in a suga' bush  
Tonight  
Tonight, tonight, tonight, tonight.
