

In the Film

Written, arranged and performed by © Emmanuel Lopez, 1991

Lyrics:

Autumn blues return
Carries songs that burn
She paints a smile
Upon her face

Buildings watch her fold
A dream of hers to hold
Somebody new
Somebody true

In the film
The girl finds her love

Sees an evening show
The seats beside her know
She's not alone
As long as the screen is lit

In the film
The girl finds her love

The movie house just smiles
Her passion floats for miles
Pictures are gold
They take her away

In the film
The girl finds her love
