

Do You Believe In Karma
by Kristen Karma

I've been working it, working everyday yeah
Paying my dues, I'm getting short changed
In a dime a dozen world can you buy a solution
Give it your all, get your retribution

It's physical, it's like gravity
It's only natural can you feel the energy
It's coming for you, it's coming for me
It's coming for you, it's coming for...

Do you believe in Karma?
What goes around, comes around
Do you believe in Karma?
I'm coming up, and this is going down
You better believe, you better believe
You better believe, you better believe
Karma's coming for you baby
Karma's coming for you baby

I've been making it, making my way yeah
Moving on up, never stuck in one place
I'll cross the finish line do you know how?
You get what you give so give it all right now

It's physical, it's like gravity
It's only natural can you feel the energy
It's coming for you, it's coming for me
It's coming for you, it's coming for...

Do you believe in Karma?
What goes around, comes around
Do you believe in Karma?
I'm coming up, and this is going down
You better believe, you better believe
You better believe, you better believe
Karma's coming for you baby
Karma's coming for you baby

It's not now or never
It's sooner or later
For better or worse
It could be a gift or a curse
It's gonna get ya (cause you get what you give)
It's gonna gonna get ya (cause you get what you give)

It's gonna getcha getcha (cause you get what you give)

Do you believe in Karma?

What goes around, comes around

Do you believe in Karma?

I'm coming up, and this is going down

You better believe, you better believe

You better believe, you better believe

Karma's coming for you baby

Karma's coming for you baby
