DECEMBER // WWW.SOUNDCHOICE.ORG

FOR ALL INQUIRIES, PLEASE EMAIL US AT INFO@SOUNDCHOICE.ORG

GO GREEN! SIGN UP FOR OUR E-NEWSLETTER BY FILLING OUT YOUR EMAIL AT THE END OF THE SPONSORSHIP FORM ATTACHED.

Sound Choice Pharmaceutical Institute (SCPI) is committed to providing education, scientific research, development and resources to encourage safe, moral medicines and therapeutics.

WE HAVE COME THROUGH A YEAR THAT WAS FILLED WITH BOTH CHALLENGES AND VICTORIES. HOW REASSURING IT HAS BEEN TO KNOW THAT WE CAN COUNT ON ALL OF YOU REGARDLESS OF WHAT FACES US. ON BEHALF OF THE SOUND CHOICE TEAM, PLEASE ALLOW ME TO EXTEND MY PERSONAL AND GENUINE APPRECIATION TO EACH AND EVERYONE OF YOU FOR YOUR VALUABLE CONTRIBUTIONS TO THE ORGANIZATION.

WE SEND OUR BEST WISHES AND HAPPINESS TO YOU AND YOUR FAMILIES AS WE ALL LOOK FORWARD TO A SUCCESSFUL 2017. - DR. THERESA DEISHER, PRESIDENT OF SOUND CHOICE PHARMACEUTICAL INSTITUTE

DOCTOR DEISHER WITH FORMER GOVERNOR OF ARKANSAS, MIKE HUCKABEE, AT WOMEN OF WASHINGTON LUNCHEON ON DEC 1, 2016.

SOUND CHOICE PHARMACEUTICAL INSTITUTE
CORDIALLY INVITES YOU TO ATTEND

Our Fifth Annual
Dinner Fundraising

SCPI Clinical Case Study on Fetal Vaccines & Autism

Keynote speaker: Dr. Karin Burkhard - Pediatric Psychiatrist

ON THURSDAY

April 06, 2017

READ THE VACCINE PACKAGE INSERT AND IDENTIFY EACH INGREDIENT AS SAFE BEFORE YOUR CHILD IS INJECTED WITH IT

HAVE YOUR DOCTOR EXPLAIN FULLY THE KNOWN DANGERS OF HUMAN FETAL DNA AND VIRAL CONTAMINANTS IN YOUR CHILD'S VACCINE

FOLLOW US ON TWITTER [@SOUNDCHOICE_US](https://twitter.com/SOUNDCHOICE_US) AND TAG US BY USING [#SCPIFORPARENTS](https://twitter.com/hashtag/SCPIFORPARENTS) FOR ANY COMMENTS OR QUESTIONS

SCPI Calls for Pediatrician Practice ([#SCPIforPediatricians](https://twitter.com/hashtag/SCPIforPediatricians)) as well as Parents' Support for Vaccine Studies ([#SCPIforParents](https://twitter.com/hashtag/SCPIforParents))

SCPI STANDS FOR PARENTS' RIGHT TO BE INFORMED ABOUT VACCINE SAFETY.

Dr. Deisher, leading the team of Sound Choice Pharmaceutical Institute, continues to fight for the parents' right to be informed about vaccine safety.

SOUND CHOICE FOR PEDIATRICIANS

On August 29, 2016, the Centers for Disease Control and Prevention (CDC) announced that they were taking public comment on the MMR vaccine. The comment period ended on Dec 19, 2016. The comment forum as well as citizen-cited publications can be accessed at CDC website at www.cdc.gov or at soundchoice.org.

On September 3rd, 2016, Sound Choice received a comment from a pediatrician in private practice as follows:

"Since I heard about your studies on the introduction of human fetal DNA into the vaccines and time related increases in autism rates, I changed vaccine products and played with the schedule in my office. This was about 5-6 years ago. I have not looked at hard data, but the diagnosis of autism in my office has decreased from what appeared to be almost every week to maybe 2-3 per year. I have a mostly privately insured population and thus have control over the vaccines I choose to purchase for the office. Whenever I do see a patient who will get their vaccines, I recommend fetal free vaccines when possible.

I stopped purchasing Pentacel about 5 years ago and switched to pediarix (DTaP-IPV-Hep-B), and administer that at the usual intervals. MMR I administer at age 1, and varicella at 15-18 months, Hep A at 18 months or 2 yrs. I avoid giving MMR, Varicella and Hep A vaccines together for the majority of the time."

Hence, Sound Choice urges other pediatricians and family medicine practitioners to consider replacing Pentacel and altering the schedule of other fetal vaccines to see how their autism rates in their practice might be affected. Email Sound Choice at info@soundchoice.org for more information or to report your observations. Alternatively, tag us on Twitter by using [#SCPIforPediatricians](https://twitter.com/hashtag/SCPIforPediatricians) for your comments or questions.

"I WOULD ADVISE PARENTS TO DEMAND ACTUAL SAFETY STUDIES, RATHER THAN THE "INTELLECTUAL" SAFETY STUDIES THE FDA PERFORMED, REGARDING THE FETAL CONTAMINANTS IN VACCINES." - SAID DR. THERESA DEISHER, PRESIDENT OF SCPI

SOUND CHOICE FOR PARENTS

Bob Wright, Former NBC Chief and Autism Speaks Co-Founder, is a grandfather of an autistic child. In his interview with the Today Show on March 29 this year, Wright confirmed that there are indeed a lot of issues with the Vaccine Safety Program. He pointed out that the program is "passive", not "active" as it should be. He emphasized at the end of the interview, which confirms SCPI's concerns, that "The problem is that all vaccines are the same but children who receive them are different."

The Sound Choice team, along with other key players, encourages parents to recognize, demand and fight for the right to give fully informed consent when their child is about to get a vaccine. Parents have the right to know how their child's vaccine is made and if it contains dangerous human fetal DNA and viral contaminants.

DID YOU KNOW... that the US Government pays out \$100 million dollars each year for vaccine-induced injury?

The 1986 National Childhood Vaccine Injury Act passed by Congress as a result of pharmaceutical lobbying shields drug companies from all liabilities from damage caused by the vaccines they manufacture. Therefore, the vaccine manufacturers have no incentive to insure that vaccines are safe.

Let's take a child with vaccine-induced autism for example. Instead of suing the pharmaceutical company directly, his parents are forced to petition to the Department of Health and Human Services. If the Federal Health officials oppose compensation, the case would proceed to the US Claim Court, known as the Vaccine Injury Court.
