*NO COST IMMUNIZATIONS WITH MOST INSURANCE PLANS

WE ALSO PROVIDE:

SHINGLES, RSV, PNEUMONIA VACCINES, AND TDAP VACCINES.

We will also have the **UPDATED COVID BOOSTERS**. Sign up and get any of these with your flu shot!

DID YOU KNOW?

The flu shot protects you for an average of six months, so the best time to receive your flu shot is **late September to early October**. Flu cases usually spike in the spring due to people losing their immunity by getting their flu shot too early.

On-site immunizations are a fast and easy way to protect yourselves!
You can trust our pharmacist to answer all of your questions.
