

EuroTempest Wind

EuroTempest is the leading provider in Europe of weather risk management services to the industry. They provide a combination of observed and forecasted wind data for the European Union.

Coverage area & data available

- Europe
- Windstorm wind speeds
- Historical snapshots of the named storms to track progression
- Historical data through 2019

Update frequency

- Event data is updated every 2 hours.

Enhanced columns

We enhance your data with one column that you can view and filter by:

- Wind (EuroTempest) [Date/Time]

What the data means

Wind provides European windstorm gust bands combining forecast data with observed information.

Exported Columns

The models you enhanced your data with will be available in exported CSV files as:

- EuroTempest [Peril Type] [Event Name]

When you download your enhanced data, look for the columns that start with the "Provider Name", then the "Peril Type", and ending with the event name. For example, "EuroTempest wind speed et_eu_windstorm_ortrud_diego".
