

## Météo-France Wind

Météo-France offers meteorological expertise services and products focusing on Europe and France specifically. They combine a digital forecasting system with analysis of observed data to provide a 48-hour wind speed projection.

### Coverage area & data available

- Europe
- Wind speeds
- Historical data to May 2020

### Update frequency

- Event data is updated daily.

### Enhanced columns

We enhance your data with one column that you can view and filter by:

- Wind (Météo-France) [Date/Time]

### What the data means

Wind provides European winds gust bands from forecast data.

### Exported Columns

The models you enhanced your data with will be available in exported CSV files as:

- Météo-France [Peril Type] [Date]

When you download your enhanced data, look for the columns that start with the "Provider Name", then the "Peril Type", and ending with the date. For example, "Météo-France wind speed mf\_eu\_windstorm\_2022\_05\_12".
