

SMR-300, 310, 320

SPEEDO THIN, Reducer (2.1 VOC)

TECHNICAL DATA

DESCRIPTION:

Speedo Thin Reducers are formulated exclusively for the refinish mobile repair industry. Through innovative technology, all three speed reducers have been designed to improve flow and leveling without reducing film integrity. Speedo Thin Reducers are designed for both SpeedoKote clearcoats and primers. Speedo Thin Reducers maintain a V.O.C. of 2.1 lb/gal.

PACKAGING:
