

SQUEEZEFUNNELS

QUICK START GUIDE

REGISTERING FIRST FUNNEL

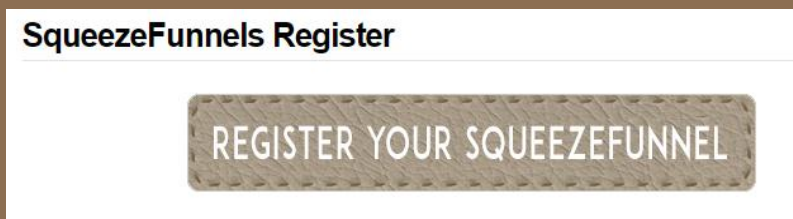

SqueezeFunnels is in its simplest form a Drag & Drop marketing page builder for landing pages, sales pages, JV pages, webinar pages and any other marketing page. It is not a product to download so you will find the download pages (*Premium, Pro Upgrade and DFY Funnel Upgrade*) empty.

Note: DFY templates, modules and tools are all located in the page builder of the funnel and not in the members area.

On the left section of the members area you will find what you have purchased. So if you got everything, you will see the main and OTOs in the menu otherwise it will only show Main Platinum if you did not get the OTOs.

To register first funnel click on the Register... buttons

A new page will open where you will enter your domain name and site title in the respective fields then click Signup Now button. Your domain name will automatically become your username.
