To Whom It May Concern:

I am writing this letter in support of Derek Miceli who has been the host for the NMU Coaches Show for the last few years.

Derek has done an incredible job with this show since taking over. Since he started the show, my teams and I have been included consistently in the show. He has done a great job giving representation to all of the programs at NMU. He has also added in including the student athletes on the show looking to bring in some other information about the teams and what really goes on behind the scenes. I was always amazed and impressed at how well he researched the athletes and also the current events and results we were having at the time. He asked great questions and made it easy to talk especially for those that were nervous being on. What he has done with show has added some great insight into what goes on in NMU Athletics and also highlighted the great young adults we have at NMU and in NMU Athletics.

If you have any questions for me about Derek and his work please feel free to contact me at any time.

Sincerely,

A handwritten signature in blue ink that reads "Jenny Ryan".

Coach Jenny Ryan
NMU Head Cross Country and Track and Field Coach
