

## **Basketball Scoresheet Instructions**

- \*Write down a team's primary rotation players with their number & last name in individual boxes.
- \*To keep track of scoring runs, record each team's point total in their column, according to the order in which they scored.
- \*For a made free throw, draw a slash through the number in the respective player's scoring box.
- \*For a 2pt basket, draw a sideways figure-eight (or two circles) through two consecutive numbers.
- \*For a 3pt basket, draw a solid line through three consecutive numbers.
- \*When a player commits a foul, put a slash through the respective number beneath the player's name.
- \*Between periods, switch pens so that a different color is used to indicate events happening later in the game.
- \*Draw a solid line beneath the last basket before halftime in the scoring columns & circle each team's end-of-period score.
- \*At each timeout, draw a line beneath the last basket in the scoring columns & write "TO" beside it.
- >>Record the time of the timeout in the TO column of the team who called it & note the score, along with the leading team.
