INTERNATIONAL CONFERENCE ON

Blockchain & Bitcoin Summit-2018

• **24, 25th MAY 2018**

www.starconferences.org

About us

STAR CONFERENCES strives to spread knowledge and create amazing platforms for like-minded professionals to explore themselves while interacting with their colleagues in real-time and today is a very special day in the diminutive yet significant existence of Conference.

“Reading
maketh a
full man;
conference
a ready
man”

FRANCIS BACON

STAR Conferences (Scientists Talk About Research) is extremely passionate in 3C's, Creating, Connections and Conversions among research scientists and researchers as leading experts to integrate B2B businesses among individuals, and companies to connect, communicate, cultivate, and convert research ideas elegantly and efficiently for human mankind.

Bitcoin is the first blockchain-based decentralized digital currency that is progressively being utilized everywhere worldwide since 2009. It has advanced its development into many other assets and forms of Blockchain technology. The industry has been developing more rapidly than the boldest forecasts predicted. Capitalization of the crypto-currency market has approached the \$ 100 billion mark in 2017

Blockchain & Bitcoin Conference is a series of events focussing on Blockchain and cryptocurrencies. The Blockchain technology has already conquered not only the financial and banking spheres but also started to spread its roots in medicine, insurance, document circulation, solar, etc. Experts will share their experience of implementing Blockchain in governmental institutions (Govtech), banking system, trading, media, healthcare and other spheres. We will discuss all the aspects of creating innovative IT products - from the emergence of idea to entering the market.

Blockchain technology, which is best known for powering Bitcoin and other cryptocurrencies, is gaining steam among finance firms because of its potential to streamline processes and increase efficiency. The technology could cut costs by up to \$20 billion annually by 2022.

Bitcoin, have paved the way for increased mainstream acceptance for the digital currency, which even has the potential for transforming global financial transactions. In current scenario, most of the online merchants and startup companies have already started enjoying the anonymity and efficiency of bitcoin payments, which allows them to cut overhead costs compared to credit or debit cards transactions.

The Global Bitcoin Technology Market is estimated to grow at a CAGR of 7.26% over the period 2015 - 2020. Booming economy and growing disposable income among middle income group in developing world has led Bitcoin technologies to gain traction and to be used as one of the medium of exchange in the region.

Introduction:

B C B - 2 0 1 8

That's because blockchain, which operates as a distributed ledger, has the ability to allow multiple parties to transfer and store sensitive information in a space that's secure, permanent, anonymous, and easily accessible. That could simplify paper-heavy, expensive, or logistically complicated financial systems, like remittances and cross-border transfer, shareholder management and ownership exchange, and securities trading, to name a few. And outside of finance, governments and the music industry are investigating the technology's potential to simplify record-keeping.

As a result, venture capital firms and financial institutions alike are pouring investment into finding, developing, and testing blockchain use cases. Over 50 major financial institutions are involved with collaborative blockchain startups, have begun researching the technology in-house, or have helped fund startups with products rooted in blockchain.

Invitation:

B C B - 2 0 1 8

We are glad to announce the "International conference" on **BLOCKCHAIN & BITCOIN SUMMIT-2018** to be held in **TORONTO, CANADA** on **May 24-25, 2018** organised by **Star conferences LLC, USA** in collaboration with generous support and cooperation from Editorial Board members.

World Blockchain & Bitcoin (BCB-2018) on May 24-25, 2018 at Toronto, Canada.

BCB-2018 is meant to be a learning experience for all Blockchain & Bitcoin professionals looking to improve and adapt to modern marketing strategies.

The main theme of the conference is "Emerging World on Blockchain & Bitcoin conference"

BCB-2018 is an event designed for technical, and academic communities to facilitate the application of research findings related to Cryptocurrency. Industry experts from all over the world will openly share their best practices and insights that will deck you out to become future leaders in a data driven environment.

Goals:

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about

BCB-2018 is an event designed for technical, and academic communities to facilitate the application of research findings related to Cryptocurrency.

Scientific collaborations around the world

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Major sessions:

- Bitcoin Miner
- Cloud Bitcoin Mining
- Paper Bitcoin Wallet
- Bitcoin price Charts
- Bitcoin Mining Pools
- Mining profitability
- Litecoin & Bitcoin
- Future Blockchain Technology
- Public & Permissioned Blockchains
- Applications and Use cases of Blockchains
- Blockchain issues and limitations
- Ethereum Mining Works
- Ethereum Scale
- Distributed Ledger
- Decentralized Applications
- Ethereum Smart Contracts Work
- IOT solutions
- Blockchain Sphere
- Mining and Trading of Cryptos

About Toronto:

B C B - 2 0 1 8

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo.

Venue & Accommodation:

Holiday Inn Express Toronto East 50 Estate Drive
Scarborough Ontario, M1H 2Z1

Phone: 416-439-9666
