# Invitation

TORONTO  
CANADA  
MAY 24-25  
2018

Dear Attendees,

We are glad to announce the Data Science And Big Data Analytics Congress to be held in Toronto, Canada from May 24-25, 2018 organized by STAR Conferences LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

DSDA-2018 is an event designed for technical, and academic communities to facilitate the application of research findings related to Big Data Analytics & Addressing Challenges on Data Science. The conference invite participants from all leading universities, business, government and public sector, technical, and academic communities to discuss the trends, tools and opportunities big data analytics delivers in your respective fields. Industry experts from all over the world will openly share their best practices and insights that will deck you out to become future leaders in a data driven environment. The main theme of the conference is

*“Emerging World on Big Data Analytics & Addressing Challenges on Data Science ROI”.*

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Technical Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information o take your department to the next level.

We look forward to personally welcoming you to Toronto, Canada.

DSDA 2018

## **How STAR Conferences differs from others?**

- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking
- Over 1000+ Unique Visitors per conference

## **DSDA 2018 salient features**

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Highly Organized and Structured Scientific programs
- Meet with new vendors and suppliers

# About Conference

DSDA 2018

TORONTO  
CANADA  
MAY 24-25  
2018

## **Purpose**

DSDA-2018 is meant to be a learning experience for all data science & bigdata analytical professionals looking to improve and adapt to modern marketing strategies.

## **Goals**

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

Bringing together the world's data science & bigdata analytical professional experts to catalyze and advance scientific knowledge about Data Science And Big Data Analytics present the most recent research findings, and promote and enhance scientific collaborations around the world

## **Objectives**

After participating in this meeting, attendees should be able to

Discuss Emerging World on Big Data Analytics

Discuss about Addressing Challenges on Data Science ROI”.

Apply recent research findings related to Data Science And Big Data Analytics

## Major sessions

TORONTO  
CANADA  
MAY 24-25  
2018

- Deep Learning
- Predictive Analytics
- Machine Learning
- Natural Language Processing
- Probabilistic Programming
- Artificial Intelligence
- Data Wrangling
- Stream Analytics
- Large scale analytics
- Data Mining
- Data Analytics
- Predictive Analytics
- Data Science with Spark
- Interactive Data Visualization
- R for Data Science
- Unsupervised Learning
- Python for Data Science
- Data Wrangling
- Text Analytics
- Bayesian Methods
- Chatbot
- Neural networks
- NLP
- Security
- The Future of Data Science
- Solving Business Problems with Data Science
- Speech Recognition
- Image processing

# About Toronto

DSDA 2018

## Toronto, Canada

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo.

Toronto is Canada's largest city, the fourth largest in North America, and home to a diverse population of about 2.8 million people. It's a global centre for business, finance, arts and culture and is consistently ranked one of the world's most livable cities.
