

BOOKMARK YOUR TALK AT  
STAR CONFERENCES

A blue-toned illustration of a small robot with a spherical head and a body, standing on a complex circuit board. The robot is holding a small component. The circuit board is filled with various components, including a large chip labeled 'PC-WARE' and another labeled 'M68-20110P-1001-DEM'. The background is a dark blue gradient with a diagonal split between orange and blue.

# INTERNATIONAL CONFERENCE ON ROBOTICS & ARTIFICIAL INTELLIGENCE

MAY 21-22, 2018

LOS ANGELES,

USA

# Invitation

# ROBOTICS & ARTIFICIAL INTELLIGENCE 2018

Dear Attendees,

We are glad to announce the International Conference on Robotics and Artificial Intelligence to be held in Los Angeles, USA from May 21-22, 2018 organized by STAR Conference LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This event is designed for International Robotics and Artificial Intelligence professionals to facilitate the application of research findings related to Robotics as well as attempt to integrate the concept of modern Artificial Intelligence. The conference invite participants from all leading universities, automobile companies, and some of the leading individuals in field of Robotics management to share their experiences on all aspects of this rapidly expanding field and thereby, providing a showcase of the latest Robotics and AI technology. The main theme of the conference is

***“New Era Of Evolutionary Robotics & Artificial Intelligence:  
Addressing present and future challenges “.***

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Technical Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Los Angeles, USA

# About Conference

# ROBOTICS & ARTIFICIAL INTELLIGENCE 2018

**Let me begin by quoting the legendary Francis Bacon:  
"Reading maketh a full man; conference a ready man"**

**STAR CONFERENCES** strives to spread knowledge and create amazing platforms for like-minded professionals to explore themselves while interacting with their colleagues in real-time and today is a very special day in the diminutive yet significant existence of Conference.

STAR Conferences (Scientists Talk About Research) is extremely passionate in 3C's, Creating, Connections and Conversions among research scientists and researchers as leading experts to integrate B2B businesses among individuals, and companies to connect, communicate, cultivate, and convert research ideas elegantly and efficiently for human mankind.

Create, build and execute cutting edge research talks to maintain "top-of-mind" awareness.

Connections among individuals, entrepreneurs, and business owners to create and build a strong steady stream of leads, prospects and sales.

Conversions build out and grow highly-targeted campaigns that keep their brand and awareness with potential clients.

# About Conference

# ROBOTICS & ARTIFICIAL INTELLIGENCE 2018

LOS ANGELES  
USA  
MAY 21-22, 2018

## *How STAR Conferences differs from others?*

- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking
- Over 1000+ Unique Visitors per conference

## *Silient features of Robotics & Artificial Intelligence-2018*

- Expand your knowledge and find solutions to problems
- Knowledge, Bench marking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Meet with new vendors and suppliers
- Meet Academia and Industry visionaries to get inspired

# About Conference

# ROBOTICS & ARTIFICIAL INTELLIGENCE 2018

LOS ANGELES  
USA  
MAY 21-22, 2018

## *Purpose:*

RAI-2018 is meant to be a learning experience for all Robotics and Artificial Intelligence Professionals looking to improve and adapt to modern strategies.

## *Goals:*

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.

Bringing together the world's Robotics and Artificial Intelligence experts to catalyze and advance scientific knowledge about Robotics and Artificial Intelligence scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

## *Objectives*

After participating in this meeting, attendees should be able to discuss emerging issues in Robotics and Artificial Intelligence.

Discuss and apply recent research findings related to Robotics and Artificial Intelligence.  
Reflect on the place of critical distance in Robotics and Artificial Intelligence.

# About Conference

# ROBOTICS & ARTIFICIAL INTELLIGENCE 2018

## Highlights:

- Intelligence Control System
- Human Centered Robotics
- Bio-metric Face Testing
- Surgical Robotics
- Machine Learning
- Wearable Robotics
- Speech Recognition
- Rehabilitation Robotics
- Deep Learning
- Printable Robotics
- Intelligence Agents
- Genetic Algorithm
- Robot Autonomy
- Signal Processing
- Space and UnderWater Robots
- Spam Detection
- Creative and Entertaining Robots
- Educational Robots
- Logical Inference
- Ethic Robotics
- Decision Making
- Mobile Robotics
- Soft Robotics
- Intelligent Driving
- Cloud Robotics
- Swarm Intelligence
- Nano Robotics
- Fuzzy Logic
- Evolutionary Robotics
- Creative and Entertaining Robots
- Intrusion Detection
- Educational Robots
- Security Intelligence
- Domestic Robots
- Security Intelligence
- Domestic Robots

# About Los Angeles

# ROBOTICS & ARTIFICIAL INTELLIGENCE 2018

LOS ANGELES  
USA  
MAY 21-22, 2018

*Los Angeles* is a sprawling Southern California city and the center of the nation's film and television industry. Near its iconic Hollywood sign, studios such as Paramount Pictures, Universal and Warner Brothers offer behind-the-scenes tours. On Hollywood Boulevard, TCL Chinese Theatre displays celebrities' hand- and footprints, the Walk of Fame honors thousands of luminaries and vendors sell maps to stars' homes.

*Los Angeles* has several nicknames. One is simply the city's initials, L.A. It is also called the City of Angels because Los Angeles means "the angels" in Spanish.
