

BOOKMARK YOUR TALK AT
STAR CONFERENCES

TORONTO, CANADA
MAY 30-31, 2019

WORLD SUMMIT ON

AUTOMATION,

**ARTIFICIAL
INTELLIGENCE,**

**ROBOTICS AND
MECHATRONICS**

Invitation

**TORONTO, CANADA
MAY 30-31, 2019**

Dear Attendees,

We are glad to announce the International Conference on Automation, Artificial Intelligence, Robotics and Mechatronics to be held in Toronto, Canada from May 30-31, 2019 organized by STAR Conference LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This event is designed for International Automation, Artificial Intelligence, Robotics and Mechatronics professionals to facilitate the application of research findings related to Robotics as well as attempt to integrate the concept of modern Artificial Intelligence. The conference invite participants from all leading universities, automobile companies, and some of the leading individuals in field of Robotics management to share their experiences on all aspects of this rapidly expanding field and thereby, providing a showcase of the latest Robotics, AI, Automation and Mechatronics technology. The main theme of the conference is

"Future Scope with latest Innovations in Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation."

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Technical Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Toronto, Canada.

RAI-2019

About Conference

*"Let me begin by quoting the legendary Francis Bacon:
Reading maketh a full man; conference a ready man"*

STAR CONFERENCES strives to spread knowledge and create amazing platforms for like-minded professionals to explore themselves while interacting with their colleagues in real-time and today is a very special day in the diminutive yet significant existence of Conference.

STAR Conferences (Scientists Talk About Research) is extremely passionate in 3C's, Creating, Connections and Conversions among research scientists and researchers as leading experts to integrate B2B businesses among individuals, and companies to connect, communicate, cultivate, and convert research ideas elegantly and efficiently for human mankind.

Create, build and execute cutting edge research talks to maintain "top-of-mind" awareness.

Connections among individuals, entrepreneurs, and business owners to create and build a strong steady stream of leads, prospects and sales.

Conversions build out and grow highly-targeted campaigns that keep their brand and awareness with potential clients.

MAY 30-31, 2019

RAI-2019

About Conference

How STAR Conferences differs from others?

- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking
- Over 1000+ Unique Visitors per conference

Silient features of Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation-2019

- Expand your knowledge and find solutions to problems
- Knowledge, Bench marking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Meet with new vendors and suppliers
- Meet Academia and Industry visionaries to get inspired

RAI-2019

About Conference

TORONTO, CANADA
MAY 30-31, 2019

Purpose:

RAI-2019 is meant to be a learning experience for all Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation Professionals looking to improve and adapt to modern strategies.

Goals:

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.

Bringing together the world's Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation experts to catalyze and advance scientific knowledge about Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives:

- After participating in this meeting, attendees should be able to discuss emerging issues in Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation.
- Discuss and apply recent research findings related to Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation.
- Reflect on the place of critical distance in Robotics, Artificial Intelligence, Mechatronics, Cybernetics & Automation.

RAI-2019

About Conference

Highlights:

- Automation Control
- Robot Manipulators: Trends and Development
- Robotics and Automation
- Sensing and control system
- Human-Centered Robotics
- Surgical Robotics
- Rehabilitation Robotics
- Printable Robotics
- Humanoid and Bipedal Robotics
- Robot Autonomy
- Space and Under Water Robots
- Intelligence Control System
- Machine Learning
- Deep Learning
- Intelligence Agents
- Decision Making
- Learning and Neural Networks
- Intelligent Driving
- Swarm Intelligence
- New Approaches in Automation and Robotics
- Systems engineering and theory
- Abductive, Case-based Reasoning
- Humanoid Robots: New Developments
- Robot Localization and Map Building
- Logical Inference
- Motion Control
- Consumer electronics
- Design engineering
- Mechanical sensors
- Eco mechatronics
- Intelligent Mechatronics
- Machine Learning
- Quest for Artificial Intelligence
- Remote and Telerobotics
- Automation Control
- Prototypical Applications
- Genetic Algorithm
- Intrusion Detection
- Security Intelligence
- Machine Ethics
- Mathematical Optimization
- Mechatronics
- Robot Rights
- Common-sense Reasoning
- Control systems
- Microprocessors
- Ethic Robotics
- Soft Robotics

About Toronto

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo.

Toronto is Canada's largest city, the fourth largest in North America, and home to a diverse population of about 2.8 million people. It's a global centre for business, finance, arts and culture and is consistently ranked one of the world's most livable cities.
