

BOOKMARK YOUR TALK AT
STAR CONFERENCES

PARIS, FRANCE
SEPTEMBER 28-29, 2019

EURO WORLD CONGRESS ON
AUTOMATION, ROBOTICS
AND CYBERNETICS

Invitation

**PARIS, FRANCE
SEPTEMBER 26-27, 2019**

Dear Attendees,

We are glad to announce the International Conference on Automation, Robotics and Cybernetics to be held in Paris, France from September 26-27, 2019 organized by STAR Conference LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This event is designed for International Automation, Robotics and Cybernetics professionals to facilitate the application of research findings related to Robotics as well as attempt to integrate the concept of modern Artificial Intelligence. The conference invite participants from all leading universities, automobile companies, and some of the leading individuals in field of Robotics management to share their experiences on all aspects of this rapidly expanding field and thereby, providing a showcase of the latest Automation, Robotics and Cybernetics technology. The main theme of the conference is

*"Future Scope with latest Innovations in
Robotics, Cybernetics & Automation."*

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Technical Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Paris, France.

About Conference

PARIS, FRANCE
SEPTEMBER 26-27, 2019

*"Let me begin by quoting the legendary Francis Bacon:
Reading maketh a full man; conference a ready man"*

STAR CONFERENCES strives to spread knowledge and create amazing platforms for like-minded professionals to explore themselves while interacting with their colleagues in real-time and today is a very special day in the diminutive yet significant existence of Conference.

STAR Conferences (Scientists Talk About Research) is extremely passionate in 3C's, Creating, Connections and Conversions among research scientists and researchers as leading experts to integrate B2B businesses among individuals, and companies to connect, communicate, cultivate, and convert research ideas elegantly and efficiently for human mankind.

Create, build and execute cutting edge research talks to maintain "top-of-mind" awareness.

Connections among individuals, entrepreneurs, and business owners to create and build a strong steady stream of leads, prospects and sales.

Conversions build out and grow highly-targeted campaigns that keep their brand and awareness with potential clients.

About Conference

PARIS, FRANCE
SEPTEMBER 26-27, 2019

How STAR Conferences differs from others?

- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking
- Over 1000+ Unique Visitors per conference

Silient features of Automation, Robotics & Cybernetics -2019

- Expand your knowledge and find solutions to problems
- Knowledge, Bench marking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Meet with new vendors and suppliers
- Meet Academia and Industry visionaries to get inspired

About Conference

**PARIS, FRANCE
SEPTEMBER 26-27, 2019**

Purpose:

RAI-2019 is meant to be a learning experience for all Automation, Robotics and Cybernetics Professionals looking to improve and adapt to modern strategies.

Goals:

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.

Bringing together the world's Automation, Robotics and Cybernetics experts to catalyze and advance scientific knowledge about Automation, Robotics and Cybernetics scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives:

- After participating in this meeting, attendees should be able to discuss emerging issues in Automation, Robotics and Cybernetics .
- Discuss and apply recent research findings related to Automation, Robotics and Cybernetics
- Reflect on the place of critical distance in Automation, Robotics and Cybernetics .

About Conference

PARIS, FRANCE
SEPTEMBER 26-27, 2019

Highlights:

- Mathematical Optimization
- Mechatronics
- Abductive, Case-based Reasoning
- Robot Rights
- Common-sense Reasoning
- Control systems
- Microprocessors
- Systems engineering and theory
- Product design
- Motion Control
- Consumer electronics
- Design engineering
- Mechanical sensors
- Eco mechatronics
- Intelligent Mechatronics
- Intelligent control
- Application security
- Information security
- Network security
- Cognitive Robotics
- Operational security
- End-user education
- Spam Detection
- Intrusion Detection
- Security Intelligence
- Machine Ethics
- Human-Centered Robotics
- Surgical Robotics
- Wearable Robotics
- Rehabilitation Robotics
- Printable Robotics
- Humanoid and Bipedal Robotics
- Ethic Robotics
- Soft Robotics
- Cloud Robotics
- NanoRobotics
- Evolutionary Robotics
- Robot Autonomy
- Space and Under Water Robots
- Creative and Entertaining Robots
- Educational Robots
- Intelligence Control System
- Machine Learning
- Deep Learning
- Intelligence Agents
- Logical Inference
- Decision Making
- Learning and Neural Networks
- Swarm Intelligence
- Fuzzy Logic
- Genetic Algorithm
- Signal Processing
- Disaster recovery/business continuity planning

About Paris

Paris (nicknamed the City of light) is the capital city of France, and the largest city in France. The area is 105 km², and around 2.15 million people live there. If suburbs are counted, the population of the Paris area rises to 12 million people.

The Seine river runs through the oldest part of Paris, and divides it into two parts, known as the Left Bank and the Right Bank. It is surrounded by many forests.

- The Eiffel Tower is the most famous sight in Paris, built by Gustave Eiffel in 1889 with 6,300 tons of iron
- The Louvre is a museum with very famous, old works of art, such as the Mona Lisa and the Venus de Milo
- The Musée d'Orsay was a train station, but it is now an art museum
- The Moulin Rouge is a cabaret with many shows, and it opened in 1889. It is in Montmartre – a part of Paris with an exciting nightlife
- The Champs-Élysées is probably the most famous street in Paris, and one of the most famous in the world
- The Basilica of Sacré-Cœur is a major church devoted to the Sacred Heart.
