

BOOKMARK YOUR TALK AT
STAR CONFERENCES

TOKYO, JAPAN
MARCH 28-29, 2019

WORLD SUMMIT ON
ARTIFICIAL INTELLIGENCE,
ROBOTICS AND MECHATRONICS

Dear attendees,

We are glad to announce the International Conference on Artificial Intelligence, Robotics and Mechatronics to be held in Tokyo, Japan from March 28-29, 2019 organized by STAR Conference LLC, USA in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This event is designed for International Artificial Intelligence, Robotics and Mechatronics professionals to facilitate the application of research findings related to Robotics as well as attempt to integrate the concept of modern Artificial Intelligence. The conference invite participants from all leading universities, automobile companies, and some of the leading individuals in field of Robotics management to share their experiences on all aspects of this rapidly expanding field and thereby, providing a showcase of the latest Robotics, AI and Mechatronics technology. The main theme of the conference is

*"Future Scope with latest Innovations in Robotics,
Artificial Intelligence, Mechatronics."*

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Technical Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to Tokyo, Japan.

About Conference

RAI 2019

*"Let me begin by quoting the legendary Francis Bacon:
Reading maketh a full man; conference a ready man"*

STAR CONFERENCES strives to spread knowledge and create amazing platforms for like-minded professionals to explore themselves while interacting with their colleagues in real-time and today is a very special day in the diminutive yet significant existence of Conference.

STAR Conferences (Scientists Talk About Research) is extremely passionate in 3C's, Creating, Connections and Conversions among research scientists and researchers as leading experts to integrate B2B businesses among individuals, and companies to connect, communicate, cultivate, and convert research ideas elegantly and efficiently for human mankind.

Create, build and execute cutting edge research talks to maintain "top-of-mind" awareness.

Connections among individuals, entrepreneurs, and business owners to create and build a strong steady stream of leads, prospects and sales.

Conversions build out and grow highly-targeted campaigns that keep their brand and awareness with potential clients.

TOKYO, JAPAN

MARCH 28-29, 2019

How STAR Conferences differs from others?

- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking
- Over 1000+ Unique Visitors per conference

Silient features of Artificial Intelligence, Robotics and Mechatronics-2019

- Expand your knowledge and find solutions to problems
- Knowledge, Bench marking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Meet with new vendors and suppliers
- Meet Academia and Industry visionaries to get inspired

About Conference

RAI 2019

Purpose:

RAI-2019 is meant to be a learning experience for all Artificial Intelligence, Robotics and Mechatronics Professionals looking to improve and adapt to modern strategies.

Goals:

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.

Bringing together the world's Artificial Intelligence, Robotics and Mechatronics experts to catalyze and advance scientific knowledge about Artificial Intelligence, Robotics and Mechatronics scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives:

- After participating in this meeting, attendees should be able to discuss emerging issues in Artificial Intelligence, Robotics and Mechatronics.
- Discuss and apply recent research findings related to Artificial Intelligence, Robotics and Mechatronics.
- Reflect on the place of critical distance in Artificial Intelligence, Robotics and Mechatronics.

TOKYO, JAPAN

MARCH 28-29, 2019

Highlights:

- Common-sense Reasoning
- Control systems
- Microprocessors
- Systems engineering and theory
- Product design
- Motion Control
- Consumer electronics
- Design engineering
- Mechanical sensors
- Eco mechatronics
- Intelligent Mechatronics
- Cognitive Robotics
- Mathematical Optimization
- Mechatronics
- Abductive, Case-based Reasoning
- Robot Rights
- Intelligent control
- Deep Learning
- Intelligence Agents
- Logical Inference
- Learning and Neural Networks
- Intelligent Driving
- Swarm Intelligence
- Fuzzy Logic
- Security Intelligence
- Human-Centered Robotics
- Surgical Robotics
- Wearable Robotics
- Rehabilitation Robotics
- Printable Robotics
- Humanoid and Bipedal Robotics
- Ethic Robotics
- Mobile Robotics
- Soft Robotics
- NanoRobotics
- Evolutionary Robotics
- Robot Autonomy
- Cloud Robotics
- Space and Under Water Robots
- Creative and Entertaining Robots
- Educational Robots
- Domestic Robots
- Intelligence Control System
- Bio-metric Face Testing
- Machine Learning
- Speech Recognition
- Genetic Algorithm
- Signal Processing
- Spam Detection
- Intrusion Detection

About Tokyo

RAI 2019

Tokyo ranked first in the Global Economic Power Index and third in the Global Cities Index. The city is considered an alpha+ world city – as listed by the GaWC's 2008 inventory– and in 2014, Tokyo was ranked first in the "Best overall experience" category of TripAdvisor's World City Survey (the city also ranked first in the following categories: "helpfulness of locals", "nightlife", "shopping", "local public transportation" and "cleanliness of streets"). In 2015, Tokyo was ranked as the 11th most expensive city for expatriates, according to the Mercer consulting firm, and also the world's 11th most expensive city, according to the Economist Intelligence Unit's cost-of-living survey. In 2015, Tokyo was named the Most Liveable City in the world by the magazine Monocle.
