

Desmos is on LEAP 2025 assessments!

Starting in the 2017-18 school year, the Desmos calculators will be available on the LEAP 2025 high school summative assessments, LEAP 360 Interims and Diagnostics for the courses Algebra I and Geometry.

High School: Graphing Calculator | www.desmos.com/testing/louisiana/graphing

The Desmos Graphing Calculator is also free in the [iOS](#) and [Android](#) app stores.

All the Desmos calculators are free to use and are accessible for vision-impaired and blind students. For more information, visit www.desmos.com/accessibility.

Please note that the testing calculator linked above is different from the calculator available on our website and apps.

The testing calculator is different in the ways listed below:

Graphing Calculator

- Images, folders, and notes are disabled for students.
- The “ABC” keypad for students is arranged alphabetically instead of QWERTY.
- The default angle mode is degrees instead of radians.
- Converting decimal answers to fractions is not enabled.
- Plotting single variable implicit equations is not enabled.
- The following functions are disabled: csc, sec, cot, arccsc, arcsec, arccot, csch, sech, coth, arccsch, arccoth, mad, cov
