

Bitwise BTC/ETH Equal Weight Strategy

Why Invest in the Strategy?

Focused Exposure: Gain professionally managed, equal-weighted exposure to the two largest and best-known crypto assets—the leading monetary asset (Bitcoin) and the leading smart-contract platform (Ethereum).

Separately Managed Account (SMA) Structure: Crypto assets are owned directly by each client and held with an institutional, regulated custodian, and can be easily monitored and reported on by an advisor.

Easy and Efficient: The SMA vehicle has no investor restrictions and allows investors to transfer existing held-away crypto assets into the SMA with no tax event.⁽¹⁾

Risks and Important Information

Bitwise Investment Advisers, LLC ("Bitwise") is providing this information to sophisticated investment advisory clients (the "Potential Clients") of investment advisers that are registered with the Securities and Exchange Commission for informational purposes only with respect to a potential opportunity to participate in Bitwise's digital asset model portfolio strategy (the "Strategy"). All information provided herein and in the attached materials is subject to the terms and conditions of the definitive documents between Bitwise and the registered investment advisers with respect to the Strategy. This is neither an offer to sell nor a solicitation of an offer to buy securities. Any decision to utilize the Strategy will be made solely by the Potential Clients and their registered investment advisers. Bitwise Investment Advisers, LLC is not a registered investment adviser and does not provide any advice to Potential Clients with respect to the Strategy, and the Strategy may not be tailored to meet the unique needs or investment objectives of the Potential Client. All trading will be directed through Eaglebrook. Bitwise is not responsible for trades, any best execution and similar obligations.

Carefully consider the investment objectives, risk factors, and charges and expenses of any Bitwise investment product before investing. Investing involves risk, including the possible loss of principal. There is no guarantee or assurance that the methodology used by Bitwise or any of the Bitwise investment products will result in any Bitwise investment product achieving positive investment returns or outperforming other investment products. There is no guarantee or assurance that an investor's investment objectives will be met through an investment into any Bitwise investment product, and an investor may lose money. Investors into any Bitwise investment product should be willing to accept a high degree of volatility in the price of such investment product and the possibility of significant losses. Bitwise investment products involve a substantial degree of risk.

For certain Bitwise investment products, Bitwise is the index provider. There is no guarantee or assurance that the methodology used to create the index will result in products that track that index achieving positive investment returns or outperforming other investment products. Indices are unmanaged and do not include the effect of fees. One cannot invest directly in an index. Certain of the Bitwise investment products may be subject to the risks associated with investing in crypto assets, including cryptocurrencies and crypto tokens. Because crypto assets are a new technological innovation with a limited history, they are a highly speculative asset. Future regulatory actions or policies may limit the ability to sell, exchange or use a crypto asset. The price of a crypto asset may be impacted by the transactions of a small number of holders of such crypto asset. Crypto assets may decline in popularity, acceptance or use, which may impact their price.

Investors in the Strategy are able to own the digital assets that constitute the Bitwise BTC/ETH Equal Weight Crypto Index (the "Index") subject to the digital assets' availability on the Eaglebrook Platform (the "Platform"). The specific digital assets available at any specific time may change.

Diversification may not protect against market risk. Diversification does not ensure a profit or protect against a loss in a declining market. Past performance is no guarantee of future results.
