About EnAble India

EnAble India is a non-profit organization working for economic independence and dignity of persons with disability (PwDs) since 1999, impacting thousands of PwDs and stakeholders. Considered to be a pioneer in employability and employment of persons with disability, EnAble India has catered to the needs of 19 disabilities thus far.

We have impacted 325,000+ individuals including persons with disabilities and their families in 28 states and 7 union territories in India. In the past 23 years, EnAble India has collaborated with 726 companies and 229 partner organizations across 1253 locations in 25 countries.

We have opened up 388 job roles across 34 sectors. We have built 12+ models and frameworks to train employable persons with disability, and includable leaders capable of leading the change. In fact, EnAble India’s models and content are used across many organizations not only in India but also in Africa, Asia, Europe and America.

Our vision is a world with persons with disability as active citizens and nation builders.

Our mission is to build a sustainable Livelihood Ecosystem for millions of PwDs to attain a dignified life while having a positive impact on the economy and society.

EnAble India has developed the path breaking ‘Includability Quotient’ for leaders and the ecosystem to develop their ability to include and maximize value across differences and disabilities.

EnAble India aims to catalyse persons with disability to co-create a world where they are valued members of society with a better quality of life. We work towards enabling the path of economic independence and dignity for persons with disability in India and unleashing disability (purple) sector as an engine for economic growth for all citizens.

We believe that the nation and the world will benefit from seeing persons with disability as change agents and serve as a constant reminder for the need for inclusion of everybody, where people reach their full potential by finding solutions. This will also enforce the perception that PwDs are independent contributing members of society.
