Brokerage and Wealth Management Services (WMS) NIGOs

Processes and Requirements

NIGO Communication for Brokerage

The status of Brokerage and WMS submissions, including NIGOs, can be viewed in the **Cases** Tab within Practice360°. Upon MMLIS Home Office receipt of the new business paperwork, a case(s) will be created within the Advisor360° platform. Cases provide the home office processing status of the submitted application and note if additional information is needed.

All brokerage NIGOs will be communicated via the Cases tab. Cases with NIGOs will be listed as "Follow Up Required," and the Registered Representative of record listed on the account documentation will receive a notification when the status of an item is changed to NIGO. In certain severe or urgent cases, the Home Office may also email or call with NIGO information.

MML Investors Services NIGO Correction Policy

For MSA-eligible business, certain changes may be made within Client360° or through other methods that do not require client initials. These are listed in the table below.

Any changes or alterations to the application that require client initials should be made by crossing out the incorrect information and inserting the correct information neatly. All such changes must be approved and initialed by the applicant; whiteout may not be used.

For more information about updating application and client information, please consult the [Updating Account Suitability Information](#) reference guide.

NIGO Time Requirements

Representatives should respond to NIGOs within 5 business days. If a NIGO is not resolved within this time, the MMLIS home office team may close the case, requiring the representative to resubmit.

Note: If there is a check accompanying a request, the NIGO must be resolved within 24 hours, or the check may be returned.

Resolving the NIGO

NIGOs may be resolved in a number of ways. The Home Office case owner can be contacted directly from the NIGO notification in the Practice360° Cases tab. For simple corrections that do not require a client's signature or a new document to be uploaded, this is the quickest way to resolve a NIGO. These corrections can also be made by uploading new or updated documentation via DocuSign the Documents tab in Practice360°.

If the client's initials are required, the updated paperwork can be submitted via DocuSign, or the other methods listed above.

Brokerage and Wealth Management Services (WMS) NIGOs

Using Client360° for MSA-Eligible Account NIGOs

For accounts that are created with a Master Services Agreement (MSA), certain changes related to account information may be made within Client360°. The methods described in the table below may also be used.

Note: When possible, all NIGO-related communication should be done within Advisor360°. Representatives should communicate with the Home Office through the Cases tab and, when needed, send updated documentation through the Documents tab in Practice360°.

NIGO REASONS AND RESOLUTION METHODS

NIGO Reason	Explanation	Resolution Method	
		Phone	Cases Tab and Documents Tab
Missing or Incomplete Statement of Investment Selection (SIS)	In order to establish a Wealth Management Services (WMS) account, a Statement of Investment Selection (SIS) generated through Investnet is required. Since the SIS directly reflects an electronic proposal in ENV2, handwritten amendments are not allowed. Any changes will require a new proposal to be drafted in ENV2 and signed by the client.	Not Applicable	<p>Can be resolved without client initials:</p> <ul style="list-style-type: none"> Registered Representative Signature <p>Client initials and date required:</p> <ul style="list-style-type: none"> Missing Client Signature Client Signature Dates
