The SECURE Act and the CARES Act—key changes affecting retirement and education savings

The December 2019 enactment of the Setting Every Community Up for Retirement Enhancement Act—better known as the SECURE Act—and the March 2020 enactment of the Coronavirus Aid, Relief, and Economic Security (CARES) Act produced significant changes to the nation’s retirement laws. Key tax-related changes are highlighted below.

Required minimum distributions⁴

The Uniform Lifetime Table can be used by all IRA owners, starting at age 70, unless their sole beneficiary for the entire year is a spouse who is more than 10 years younger. Then the Joint Life Expectancy Table is used (see IRS Pub. 590), which could reduce the required minimum distribution even further.

Uniform Lifetime Table*

Age of account owner	Divisor	Age of account owner	Divisor
70	27.4	81	17.9
71	26.5	82	17.1
72	25.6	83	16.3
73	24.7	84	15.5
74	23.8	85	14.8
75	22.9	86	14.1
76	22.0	87	13.4
77	21.2	88	12.7
78	20.3	89	12.0
79	19.5	90	11.4
80	18.7		

* The table progresses until the divisor becomes 1.9 for ages 115 and higher.

Key provisions of the SECURE Act and the CARES Act

Age for RMDs from retirement accounts is increased

The age at which an individual must begin taking required minimum distributions (RMDs) from traditional IRAs and qualified tax-deferred accounts was increased from 70½ to 72. This change only applies to those who reach 70½ after 2019 (i.e., individuals born after June 30, 1949); those who reached 70½ in 2019 or earlier are unaffected.

Age restriction on traditional IRA contributions is eliminated

A restriction that had previously barred contributions to a traditional IRA starting in the year in which the account holder reached 70½ was removed. Effective in 2020, contributions can be made beyond the age of 70½, provided the account holder continues to have earned income.

Retirement plan withdrawal allowance for new parents

An individual is now permitted to withdraw up to \$5,000—or up to \$10,000 for a couple—from a qualified retirement plan or IRA at the time of the birth or adoption of a child without incurring an early withdrawal penalty tax. In addition, such distributions can be recontributed beyond the normal 60-day window for indirect rollovers.

New restrictions on inherited retirement plan accounts

Previously, individual beneficiaries who inherited IRAs and qualified tax-deferred accounts could extend annual RMDs over their lifetimes.

This approach has been known in the industry as a stretch account, often done through an inherited IRA, because the benefits from tax-deferred growth of the remaining account balance, minus RMDs, could be stretched out for decades. Beginning with deaths occurring in 2020, most individual beneficiaries must withdraw the full account within 10 years after the original account owner’s death. Only certain beneficiaries, such as a surviving spouse, can still stretch RMDs over their life expectancy.

529 accounts may be used to pay down student loan debt

Owners of 529 education savings accounts are now permitted to withdraw up to \$10,000 tax free to pay off qualified student loans as well as use 529 assets to pay for qualified apprenticeship programs. Any student loan interest paid for with tax-free 529 plan earnings is not eligible for the student loan interest deduction.³

Special coronavirus distribution rules for IRAs and qualified plans

Distributions related to the public health crisis created by the coronavirus pandemic and made by December 30, 2020, are allowed up to a \$100,000 maximum without being subject to the additional 10% early withdrawal penalty on distributions prior to age 59½. In addition, income taxes paid on these distributions can be spread over three years, and the distributions can be recontributed.

3 Consult your financial, tax, or other advisor to learn how state-based benefits (including any limitations) would apply to your specific circumstances. Some states do not consider 529 withdrawals for primary and secondary school education, student loan repayments, and apprenticeship costs to be qualified withdrawals and, therefore, the investor may be subject to penalties. **4** The CARES Act waived the requirement to take required minimum distributions from defined contribution plans, 403(a) plans, 403(b) contracts, 457 governmental plans, and IRAs for 2020.
