Information about PSN

In 1984, Informa Investment Solutions, Inc. introduced the first commercially available investment manager search and evaluation database—Plan Sponsor Network, or PSN. PSN offers financial professionals high-quality, in-depth data on U.S., non-U.S. and global investment managers. There are over 2,000 investment managers participating in the PSN database, which covers more than 20,000 domestic and international investment products.

Investment consultants, plan sponsors and brokerage firms use PSN to perform manager searches and ongoing evaluation. Money managers use PSN for competitive analysis and positioning. Participation in the PSN database is the mandatory starting point for many client manager search processes.
