Item 4: BestVest’s Investment Advisory Business

Introduction

BestVest Investments, Ltd. was founded with the goal of assisting our clients in every aspect of their financial lives. We provide personal service, which has earned BestVest a reputation for excellence in our industry. For each of our clients we strive to help create financial stability and security to provide financial independence.

BestVest maintains close relationships with our clients. Through these relationships, BestVest is able create personalized investment plans for each of our clients aimed to satisfy their unique needs.

History of BestVest

BestVest was founded in 1995 with the purpose of providing the highest level of service to our clients. Since then, BestVest has helped both institutional and non-institutional clients achieve their financial goals. We have accomplished that task by assessing clients’ needs and executing individualized plans specifically designed to meet their requirements.

Our Unique Approach and Specialties

BestVest believes that no two clients have the same needs. As such, we do not utilize the same plan for multiple clients. Instead, using a client’s needs and goals, BestVest develops unique plans for each client including the clients, risk profile, time horizon, and investing tools. As a result, our clients are invested in a variety of different forms of financial instruments that perform differently in order to maximize individual investors’ successes while maintaining their risk parameters.

Fee-based “Wrap” Programs

BestVest offers fee based advisory “wrap” programs that are broadly characterized as professional money management, asset allocation, and internal money management services. Under these programs, Clients retain BestVest to formulate an investment program within an agreed upon risk tolerance profile taking into account the client’s investment objectives. Each program generally includes investment management, performance mentoring, and transaction execution services for a single set fee.

Item 5: Fees and Commissions

General Fees Disclosure

All securities held in accounts managed by BestVest will be independently valued by the designated Custodian, RBC CS. The account will be charged quarterly, with the default schedule being based on calendar quarters. Transaction fees apply to transactions over certain thresholds per the signed Advisory Agreement.

Brokerage fees may apply to transactions. BestVest utilizes BestVest's broker-dealer arm to transact purchases, sales, and trades in clients' accounts. This includes the varying types of mutual fund share classes (A-Shares, C-Shares, and different Institutional Share classes), UITs, IPOs and other security products. These transactions may have sale concessions credited to the registered representative. This represents a conflict of interest as brokerage fees and commissions, or sales concessions are charged on a transactional basis. This conflict is resolved by ensuring the fees and commissions are reasonable and ensuring that the Registered Investment Advisor adheres to its fiduciary duty in order to act in the best interest of clients. Clients of our firm are under no obligation, contractually or otherwise, to purchase products through any person affiliated with our firm.

Investment Advisory fees will be deducted from the account by the Custodian as per the signed Advisory Agreement. As such, compensation for the services provided to Client will be calculated and payable in advance based on the value of the assets in an Investment Advisory account, which will be determined as of the last business day of the preceding calendar quarter or alternative quarter as elected.

The initial Program fee will be calculated on the value of the initial assets in the Account and shall cover the initial quarter pro-rated based on the number of remaining days in such quarter. If the Advisory Agreement is terminated prior to the last day of a calendar quarter, a pro-rated portion, based upon the days remaining in such quarter, of the quarterly fee paid in advance will be refunded to the client.

Prior to the deduction of fees, BestVest will:

- a) Possess written authorization from the client to deduct advisory fees from an account held by a qualified custodian;
- b) Send the qualified custodian written notice of the amount of the fee to be deducted from the client's account; and
- c) Send the Client a written invoice itemizing the fee, including any formulae used to calculate the fee, the time period covered by the fee, and the amount of assets under management on which the fee was based.

All accounts will be charged per the applicable fee schedule that follows. Fee-based "wrap" accounts also charged in accordance with the schedules.
