

On behalf of KMR Financial Network and Peninsula Financial Group, we're excited to share an official update on the next chapter of our financial planning business. This summer, we're moving all investment operations to Lewes Beach!

About 18 months ago, a casual conversation with a local industry colleague sparked an exciting idea that would shape the next chapter of our personal and professional lives. What started as a simple discussion soon evolved into a thoughtfully crafted vision: merging our firms to create something even greater to serve our friends and client relationships better. We recognize that partnering has many long-term benefits, including ways to reduce risk while creating additional value for you through teamwork. While our team is growing, one thing remains unchanged: our commitment to your financial success.

In the months ahead, KMR and Peninsula will integrate into the "Lindenberg" family (Lindenberg Financial, Inc.) and align with their talented team. Led by a long-term peer, Christopher "V" vonLindenberg, V and his team have been part of our 20-year journey with Osaic, Woodbury, and Questar Capital. We are all philosophically aligned with financial planning and operate under the fiduciary standard of care to put clients first. Always.

LINDENBERG

Life is best lived by design.

Hello friends! I'm excited and honored to welcome new relationships to our growing organization. Serving others is part of who we are and what we love.

I serve as our firm's lead Certified Financial Planner and CEO / Founder. Having my name on the door, I understand that our future success is tied to those we serve. Our advisory team is enthusiastic about the opportunity to work alongside Kit and Mike; we can't wait for what's to come for all of our futures together.

On behalf of our amazing Lindenberg team, it's a privilege to integrate our family-owned business with KMR and Peninsula Financial Group. I look forward to meeting you soon and seeking a greater understanding of how our team might better support your future.

In gratitude, *Chris "V" vonLindenberg*

Kit Ryan
