

Distinctive Guidance for Significant Wealth

With significant wealth comes great opportunity, as well as an increasing complexity of choice—especially with respect to whom you entrust to share your financial and personal aspirations. While maintaining and growing your assets is critical, equally important is developing a strategy for leaving behind a legacy, and having the freedom to pursue what is most important to you.

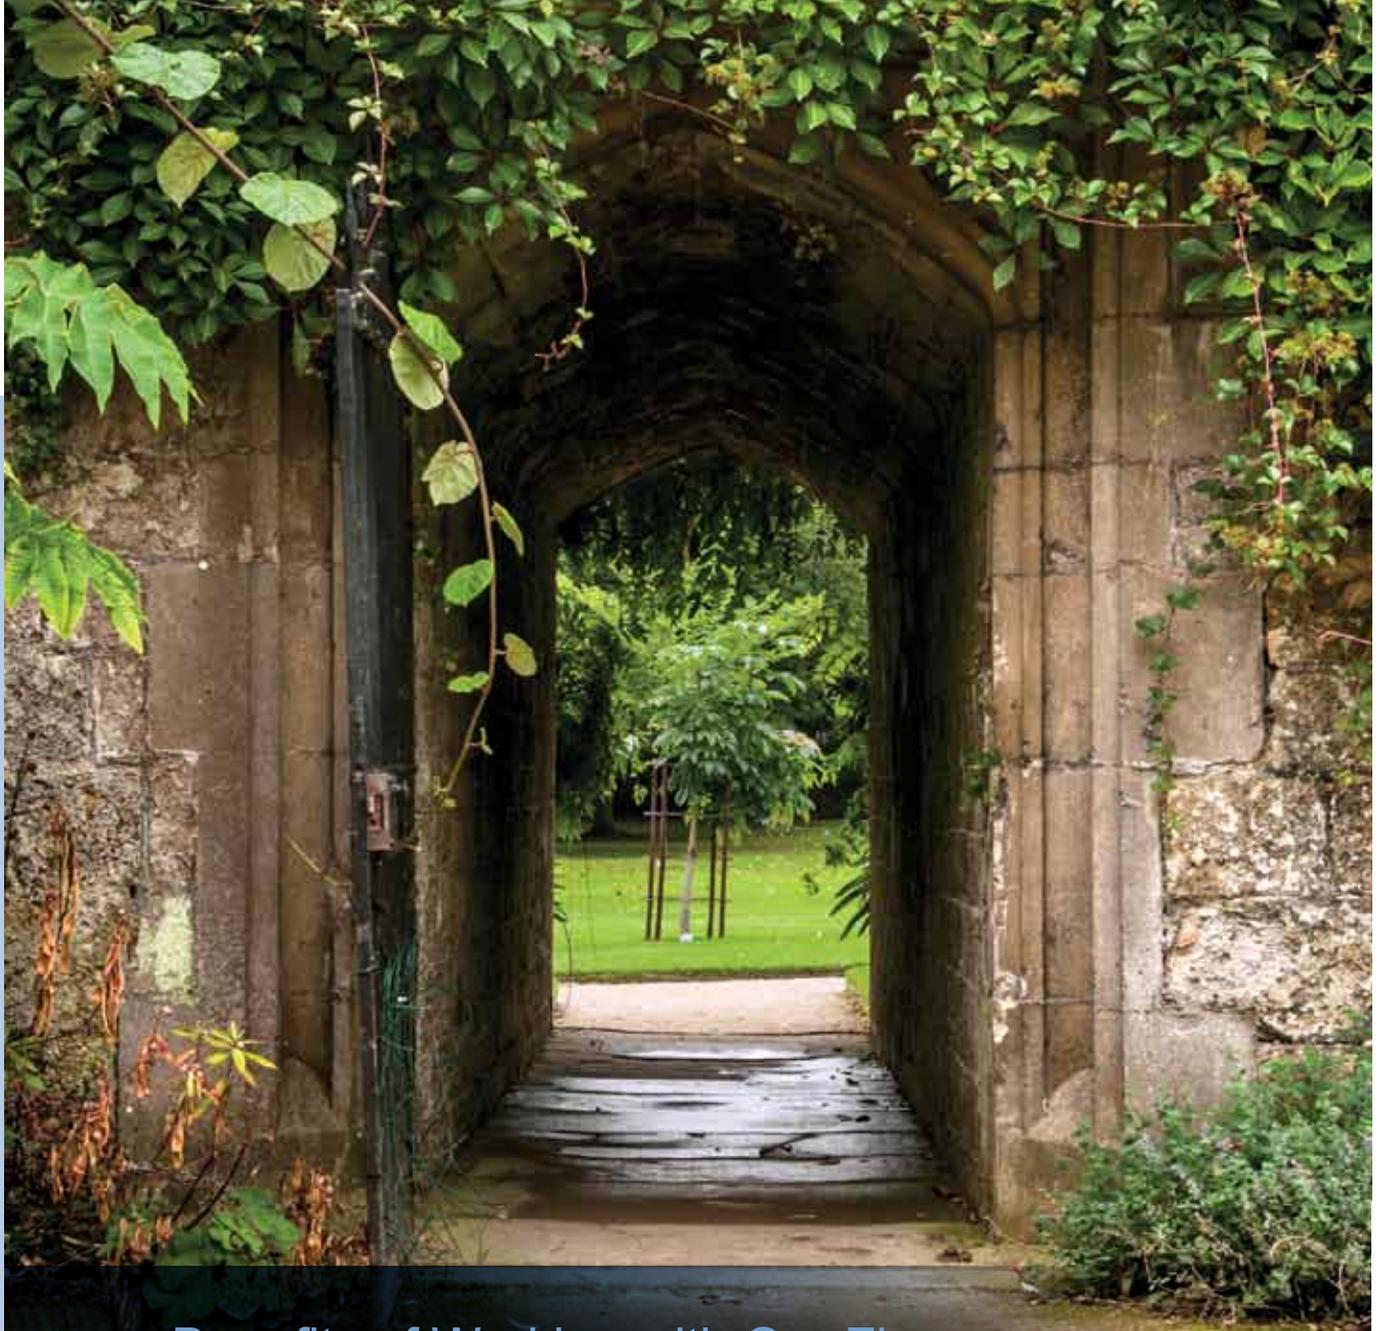

Pursuing your wealth to work for you

Our purpose is to deliver exceptional financial guidance and personalized service to help you build and preserve your wealth, create a strategy for passing on a lasting heritage to loved ones or meaningful charities, and empower you to pursue your life's aspirations.

Our firm is positioned to cater to your distinct financial needs. As your trusted financial advocate, we provide objective investment guidance and financial planning to help you manage your wealth over your lifetime and beyond.

Benefits of Working with Our Firm

- Innovative strategies. We have an understanding of the myriad of opportunities available to you, as well as the complex challenges you face, and are free to recommend only those strategies we believe align with your future goals and aspirations.
- Philanthropic support. As a client of ours, you benefit from our wide range of resources to help distribute your wealth to your favorite charities and endowments.

Our approach

Our process starts with gaining a deep understanding of your values and unique perspective on finances. We make it our goal to anticipate your needs, taking proactive steps to make timely recommendations that hold true to your best interests.

Once we have insight into your distinct financial situation, we begin to design highly customized, integrated wealth management strategies. When creating your personalized plan, we use strategies based on key principles, such as the importance of prudent diversification and the central role of asset allocation in managing risk.* Our experienced team is focused on addressing the many complexities and concerns that affluent individuals face and, having managed assets through a wide range of market cycles, understands the importance of adopting a long-term perspective and maintaining a consistent approach.

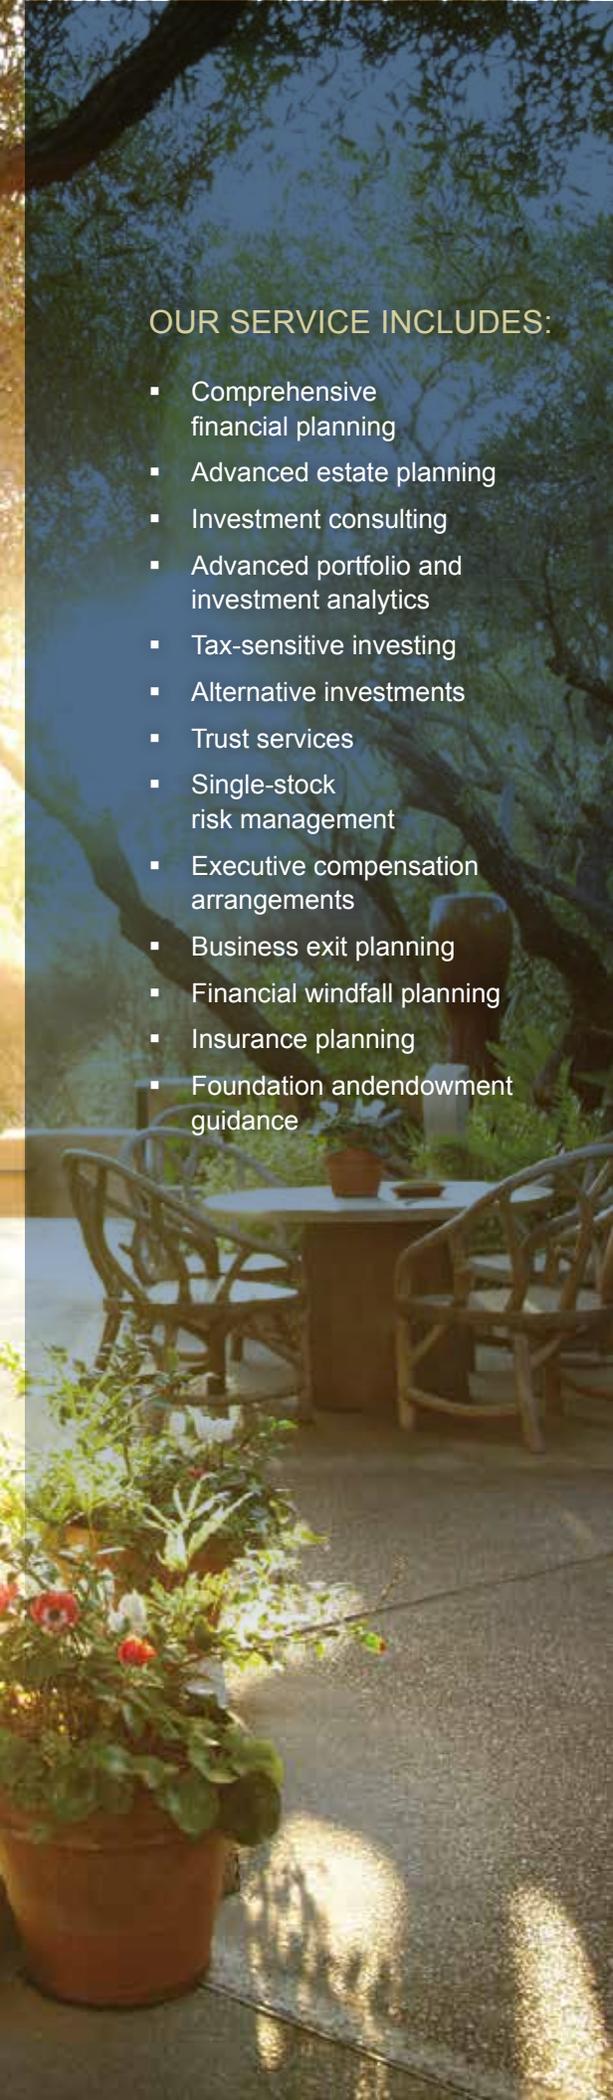

Implementation of your wealth management strategy is the final step in the initial process, but only the beginning of our ongoing commitment to you. Continued collaboration with you and your trusted professionals ensures that we continue to support your investment objectives. As markets fluctuate and objectives change, we make ongoing tactical adjustments, as needed, consistently pursuing to ensure that your plan complements your changing life priorities.

*There is no guarantee that a diversified portfolio will enhance overall returns or outperform a non-diversified portfolio. Diversification does not protect against market risk. Asset allocation does not ensure a profit or protect against a loss.

There is no assurance that these techniques are suitable for all investors or will yield positive outcomes.

Tactical allocation may involve more frequent buying and selling of assets and will tend to generate higher transaction costs. Investors should consider the tax consequences of moving positions more frequently.

Securities Investor Protection Corporation (SIPC) Insurance applies in the event that an SIPC member firm fails financially and is unable to meet obligations to securities clients, but it does not protect against losses from the rise and fall in the market value of investments. LPL's SIPC membership provides account protection up to a maximum of \$500,000 per customer, of which \$250,000 may be claims for cash. Additionally, through London Insurers, LPL accounts have additional securities protection to cover the net equity of customer accounts up to an overall aggregate firm limit of \$575 million, subject to conditions and limitations.
