6. Given the fact that over the long run (1926 to present), U.S. stocks have generated historical returns of about 9-12%, U.S. bonds have returned 4-6%, money markets have returned 2-4%, and U.S. inflation has been approximately 3%, what do you expect the average return of your investments to be for the time period you indicated in question one?
- 0-5% 1
  - 6-10% 2
  - 11-15% 3
  - More than 15% 5
7. Ten years from now, what do you expect your portfolio value will be?
- The same as or a little more than it is today 1
  - Moderately greater than it is today 2
  - Substantially greater than it is today 3
8. If your investment portfolio suffered a decline, could you cover your income needs from other resources?
- No, I have no other cash flow resources to draw on 1
  - Yes, but it would be difficult to get at those resources 2
  - Yes, I have other resources to cover the income needs 3
9. What do you want to do with the income generated by your portfolio?
- Receive all income
  - Receive some income and reinvest some 2
  - Reinvest all income

#### Risk Tolerance

10. An investment decision involves the possibility of high return as well as the possibility of suffering a loss. What most influences your thinking when making an important investment decision?
- I'm only influenced by the potential loss 1
  - I'm mainly influenced by the potential loss more than the potential gain 2
  - I'm mainly influenced by the potential gain more than the potential loss 3
  - I'm only influenced by the potential gain 4
11. Which of the following statements best describes what your reaction would be to short-term fluctuations in this investment portfolio?
- I would be extremely uneasy about any fluctuations in the value of the investment 1
  - I would be very concerned about short-term fluctuations in the value of the investment 2
  - I would have some worries about short-term fluctuations in the value of the investment 3
  - I would have little concern about short-term fluctuations in the value of the investment 4
12. Which of the following statements best describes your reaction if the value of your portfolio suddenly declined 15%?
- I would be concerned because I cannot accept fluctuations in the value of the portfolio 1
  - If the amount of income I receive was unaffected, it would not bother me 2
  - I invest for long-term growth but would be concerned about even a temporary decline 3
  - I invest for long-term growth and accept fluctuations due to market influences 4
