WALKING-WOKE FIRSTERS:

People.com said Biden has hired More people of color, More women and more diversity. They called it a cabinet of firsts.

1:08-2:20;

<https://www.youtube.com/watch?v=9UulavWjtog>

Now let me get this straight so none of you troubled neo-liberals.../.Ted.... can misconstrue what I am about to say. I couldn't care less what your skin color is, or what your gender is, I don't care who you sleep with, nor what you look like w/ your clothes off.

With that being said, hiring "the first" ...whatever it is:

The first pregnant transgender bi-sexual lesbian, the first purple person, the first martian, the first cis-gender pregnant man, the first whatever.....vs hiring the most competent person or people to design and implement government policy is a policy that is doomed to failure.

I give you :

- A doubling of gasoline prices in 7 months.
- I give you chaos in the south with more that 200,000 illegal immigrants per month storming...overrunning our southern border, w/as many as 10% infected w/ Covid. BTW, make no mistake in believing the border crisis is a bureaucratic failure...because it isn't. It is purposeful as it will add power to the Dimms. Do you believe for a second that if 67% of illegals voted Republican that our border would be wide open?
- I give you double and triple-digit increases in crime and murder rates in our largest, democrat run cities.

LIES:

PLAY : https://www.youtube.com/watch?v=l3LFML_pxIY

- He lied when he told us nobody in the military told him not to pullout, according to Chairman of the Joint Chiefs of Staff, the very woke General Mark Silly.
- He lied when he told us Americans could safely travel to the airport. According to the even woker Lloyd Austin, Americans are being beaten in the street by the Taliban. The day after Biden told us Americans could safely travel to the airport, his own State Dept told Americans to stay sheltered in place.

- He lied when he said there was no AlQaida nor ISIS in country. 15/34 provinces.
- He lied when he said our allies support his actions. No less than British Prime minister Boris Johnson, French Prime Minister Macron, German Chancellor Angela Merckel, and the EU Foreign Minister claim they weren't briefed on the pullout and that it was recklessly planned. Richard Kemp, former Commander of British military troops in Afghanistan said on Mark Levin's show that "Biden shouldn't be impeached. He should be court-martialed for betraying the United States of America and the United States armed forces."
- Again, Biden lied when he claimed that nobody in our intelligence community predicted this chaos as per the "dissent cable." The NYT, which NOBODY...and I mean NOBODY confuses w/ the WSJ, reported on Aug 17 that "Classified assessments by American spy agencies over the summer painted an increasingly grim picture of the prospect of a Taliban takeover of Afghanistan and warned of the rapid collapse of the Afghan military, even as President Biden and his advisers said publicly that was unlikely to happen as quickly, according to current and former American government officials. The Pale Lady went on to say that "Intelligence agencies predicted that should the Taliban seize cities, a cascading collapse could happen rapidly and the Afghan security forces were at high risk of falling apart." <https://www.nytimes.com/2021/08/17/us/politics/afghanistan-biden-administration.html>

Uncle Joe's history of mistakes:

- In 1975, Biden opposed giving aid to the South Vietnamese government during its war against the North, ensuring the victory of a brutal regime and causing a mass exodus of refugees. More than 100,000 refugees that is.
- In 1991, Biden opposed the first Gulf War, one of the most successful military campaigns in American history. Not only did he later regret his congressional vote, but in 1998, he criticized George H. W. Bush for not deposing Saddam Hussein, calling that decision a "fundamental mistake."
- In 2003, Biden supported the Iraq War—another congressional vote he later regretted.
- In 2007, he opposed President George W. Bush's new counterinsurgency strategy and surge in troops in Iraq, calling it a "tragic mistake. "In fact, the surge led to stunning progress, including dramatic drops in civilian deaths and sectarian violence. deaths and sectarian violence.
-

FACTS:

\$2 byn v \$18 byn/yr. China & Russia

27:1, Afghani military losses v American...60,000 dead.

1% of our military budget was being spent in Afghanistan; that's about \$7.4 byn/yr, or \$20.2 myn/day. Old Joe claims we are spending more than \$300 myn/yr, which we MIGHT have been spending when we had 150,000 troops in country. LIAR!

CHINA & TAIWAN:

Speaking of bad actors PJ/David, what does China's Dictator Xi say about Taiwan?

Dictator Xi reiterated in a speech in Jan 2019 that marked 40 years since the start of improving ties between the 2 countries, Beijing's call for peaceful unification on a one-country-two-systems basis.

How did that work for Hong Kong/2047 PJ/David?

Xi warned that China reserves the right to use force to take Taiwan.

Taiwan is only 81 miles from the coast of China, and the Chinese commie military is the world's 2nd largest with 2.8 myn active duty personnel.

China also has the world's largest navy w/:

Aircraft carriers – 2

Cruisers – 1

Destroyers – 32

Frigates – 49

Corvettes – 37 (coastal patrol craft)

Amphibious transports – 37 IMPORTANT

Medium landing ships – 21 ALSO IMPORTANT

Diesel attack submarines – 46

Nuclear attack submarines – 6

Ballistic missile submarines – 4

Coastal patrol (missile) – 86

Now there is a MASSIVE, world-wide computer chip shortage. Toyota announced last week that they are cutting production by 40% for lack of chips. Taiwan manufactures 50% of all computer chips made in the world.

China...only fashions 16% of all of the chips they use for domestic use and for products they export. China spends \$228 byn/yr IMPORTING chips.

Phock your face mask:

81 X, On avg, Americans believe the symptoms, and prognosis for Covid victims is 81 x worse than they actually are. Example:

The avg pore size found in the blue paper masks most of us wear is 5x larger than the Covid RNA strand.

A micron is 1 millionth of a meter. A nanometer is 1 billionth of a meter.

Corey Gates mentioned a couple of weeks ago that the recent smoke particles in the air are 2.5 microns. 2.5 microns equals 2,500 nanometers.

The Covid 19 virus strand ranges between 50-140 nanometers, so let's split the difference and say it is approx 95 nm in size. That means that a smoke particle is 26x the size of a Covid strand.

The hairs on your head are about 90,000 nm's thick. A CO2 molecule is .33 nm's, which means that the Covid 19 strand is just 287x as large as a CO2 molecule. Now I ask you PJ/David when you wear one of those silly, blue paper masks, are you able to exhale your CO2 thru the mask? Yep. Guess what else you exhale thru that mask??

The pore size on your blue, paper masks is as large as 500 nm's...or more than 5x the width of the Covid strand. 5x. So, go ahead and wear your silly mask...but..it's not for me. Ain't math a wonderful thing PJ/David?

Bumper sticker.
