

**Alternative Names**

- Easy Investor
- Low Risk Investor

# Core Type: The Peacemaker

Enneagram 9s are the most peaceful and harmonious of all types. Their very presence is experienced by others as calming and reassuring. When they react, they live with a fear of conflict, not wanting to cause it and avoiding it at all costs. In the process, they can lose themselves to others, their circumstances, or unhealthy activities. When they respond, they take a stand, use their voice, move through conflict, get their needs met, and create true harmony and peace.

## Core Values

- **PEACE**  
Nines naturally seek out peace and bring peace to their environment, work and relationships.
- **COMFORT**  
Nines want to feel a sense of comfort in their environment and create this for those around them as well.
- **HARMONY**  
Nines are all about harmony, making sure that everything flows and everyone is at ease.

## WEALTH 360 TYPE

### Moderate Investors

Nines like to find themselves "middle of the road" in most areas of their life as this is where you'll find the smoothest ride, away from the conflict you'll find when you venture out too far. This is where you'll tend to find them financially, average earners, spenders and savers. They tend to be conservative like 1s and fearful underneath like 6s, but more when difficulty arises or markets are chaotic, wanting to minimize tension and maximize comfort. They like it slow, steady, and calm, which is why they are the Moderate Investor.

## Core Financial Values

- **STABILITY**  
Nines do not want to rock the boat and smooth sailing will mean neither having too much, nor not enough, money.
- **SECURITY**  
Money means security to a 9, and they'll work just hard enough to be secure, but tend not to go much beyond.
- **INDEPENDENCE**  
Nines seek autonomy, albeit in quieter ways than 7s or 8s, and being financially independent means they will be free from the conflict that comes with dependency.
