** Note: If some of your expenses are NOT billed monthly, simply divide the expense to come up with a monthly amount. For example ... if your car insurance is billed every six months and the amount is \$600, you'd divide that amount by six and enter "\$100" for each month. If your property tax is billed annually and the amount is \$3000, you'd divide that amount by 12 and enter "\$250" for each month.*
