

This month we are highlighting a few tidbits around technology awareness, AI developments, volunteer opportunities, and issuing you a challenge!

Playbook Challenge

No doubt, the task of completing your Household Playbook can feel daunting at first.

We believe in the positive impact of the Household Playbook and the peace of mind it helps to provide once it's completed... that's why, over the next few months, we're going to challenge you to work on it, section by section.

This month's challenge: the [Important Contacts](#) chapter.

These may include:

- Emergency contacts: neighbors, friends, or family
- Work contacts: HR department, a supervisor, or coworkers
- Attorneys, accountants, tax preparers and other professional contacts
- Your medical care team: doctors, therapists, and specialists

Joelle can be a great resource for help with this month's challenge if you need a shipmate! [Reach out to her](#) with any questions.

*Reminder: the password to access your Household Playbook chapters from the [website](#) is **Playbook**.*

Sharing Your Personal Information with Us

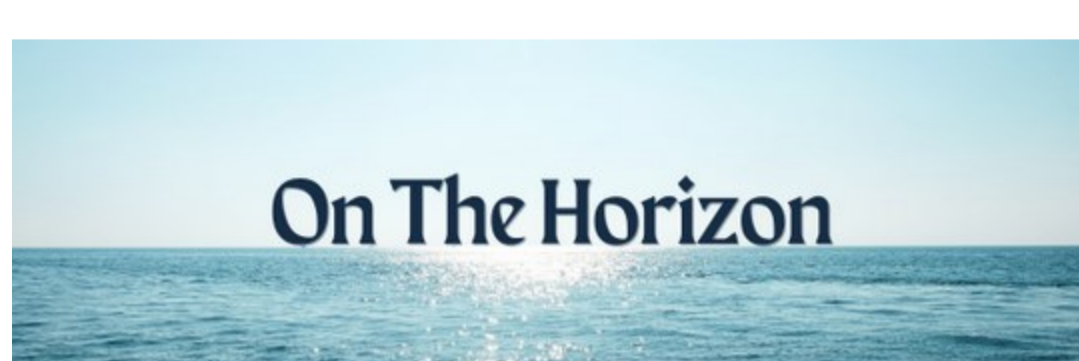

There may be times that you need to send us documents that include your personally identifiable information (PII), such as your social security number, date of birth, or account numbers.

As a reminder, please continue to use the SECURE upload link below our email signatures when sending us sensitive documents:

About DeepSeek: A Data Threat

DeepSeek is an artificial intelligence program developed in China to compete with ChatGPT and other chatbots like it for a fraction of the cost.

The platform collects a great deal of data and sends it to China. We don't know how that information is used, if it's secure, where they share it, and how long it will be retained.

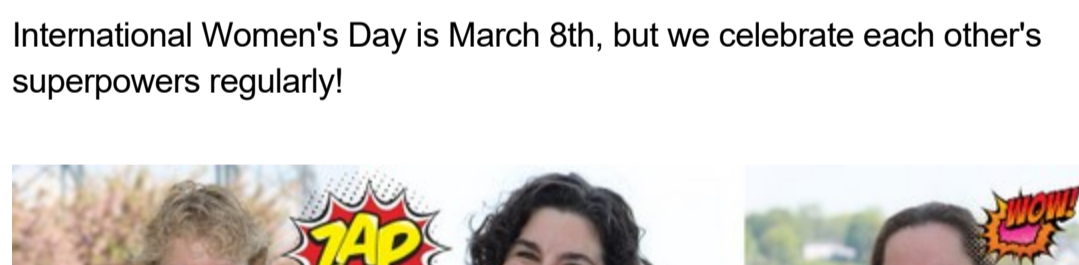

DeepSeek collects:

- Data you provide, such as email address, birthday, phone number, photos, files, and text/audio inputs
- Data available from your device, such as keystroke patterns, device model, operating system, IP address, and device ID

This is another reminder to always stay vigilant about protecting your data online!

International Women's Day is March 8th, but we celebrate each other's superpowers regularly!

Our Captain:

"Remember the comics where the superhero is moving so fast, all you see is a blur? Revelation: this is a glimpse inside Bonnie's brain. Bonnie has achieved superhero status with her ability to jump from topic to topic, task to task with speed, grace, and integrity. She also has the gift of having people feel both heard and understood." - Johanna and Joelle

First Mate Johanna:

"If you ever wondered what the physical embodiment of patience would look like, wonder no more: it's Johanna. She cares about the well-being of each of our clients and carries herself with professionalism, efficiency and kindness. Every. Single. Day." - Bonnie and Joelle

Shipmate Joelle:

"Joelle is an information sponge! Her willingness and ability to absorb new information in our ever-changing industry is reflected in the additional administrative responsibilities she's been tasked with. A quick learner she is!" - Bonnie and Johanna

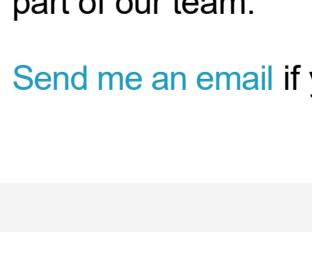

Volunteers Welcome: Community Night

Last year, Community Night made a difference for families across the seacoast by helping [Kids Five & Over](#) raise over \$13,000 to support extra-curricular scholarships for school aged children.

This year, we're welcoming volunteers to help make Community Night bigger, better, and brighter than ever before. Whether you can donate your time, your ideas, or interesting auction items, we welcome you to be part of our team.

[Send me an email](#) if you're able to be part of this terrific event!
