

A decorative graphic on the left side of the page shows a network of white spheres connected by thin white lines, resembling a molecular or network structure, set against a light blue background.

**HYLON**<sup>®</sup>

# HYLON<sup>®</sup>

HYLON<sup>®</sup> Compounds offer the best combinations of both Prime and Post-Industrial Recycled feedstocks with advanced additive and reinforcement technologies.

Ravago Manufacturing's blending of the highest quality raw materials and world-class compounding expertise, provides materials capable of serving different markets and applications independent of color and specifications.

HYLON<sup>®</sup> Prime & Post-Industrial Recycled Nylon Compounds Provide:

Excellent  
Surface Finish

UV  
Resistance

OEM & Agency  
Approvals

Optimized  
Mechanical  
Properties

Easy  
Flow

Color  
Matched On  
Request

# Compounding Solutions for Polymer Challenges

Ravago Manufacturing produces a wide range of plastic and rubber materials from high performance engineered resins to recycled post-consumer materials. Our goal is to provide consistent, high quality, competitively priced products to our customers and partners.

The Ravago Group is the number one service provider in the global market of plastics, rubber and chemicals.
