

# COMPREHENSIVE INSTRUCTIONS

For All Your Home Cleaning Needs

Alphabetized by Location

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Bathroom	Bathroom Fixtures	Super 10	1 part Super 10, 20 parts water	Spray on and wipe clean.
Bathroom	Bathroom Walls	Super 10	1 part Super 10, 20 parts water	Spray on and wipe clean.
Bathroom	Drains	G-One or G-One Phosphate Free	2 scoops	Flush with hot water down the drain.
Bathroom	Hard Water Deposits	Super 10	1 part Super 10, 10 parts water; or stronger as needed	Spray on and wipe clean.
Bathroom	Kitchen or Bathroom Countertops—Ceramic, Formica, Granite, Stainless Steel, Marble, Aluminum, Tile	Super 10	1 part Super 10, 10 parts water	Spray on and wipe clean.
Bathroom	Kitchen or Bathroom Countertops—Grout	Super 10	1 part Super 10, 3 parts water	Spray on and let stand for a few minutes. Clean with old toothbrush or small brush. Wipe clean with a cloth.
Bathroom	Mirrors	LDC	2-5 drops LDC in 22 oz/650 mL water in a spray bottle	Spray on and wipe clean.
		Super 10	3 drops Super 10 in 22 oz/650 mL water in a spray bottle	Spray on and wipe clean.
Bathroom	Sinks and Tubs	LDC	1 part LDC, 5 parts water in a spray bottle	Spray on and wipe down with a wet sponge. Rinse with water.
Bathroom	Toilet Bowl Cleaner	LDC	1 part LDC, 5 parts water	Scrub dilution with a sponge or brush.
		Super 10	1 part Super 10, 10 parts water	
Floor	Carpet (Remove Chewing Gum)	Green	Small amount, use more as needed	Cover affected area and remove gum.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Floor	Carpets & Rug (Spot Clean)	Super 10	1 part Super 10, 10 parts water	Spray on, let stand for 2-3 minutes or until it dissolves stain, blot, and wipe clean. Repeat and agitate affected area, if necessary. Check for colorfastness.
Floor	Flooring—Ceramic Tile, Clay Tile, Granite, Laminated Wood (not Hardwood), Linoleum/Vinyl, Metal, Onyx, Rubber, Stone, Terrazzo, Tile	LDC	Waxed surfaces: 1 capful LDC per 4-5 quarts/liter of water	Mop the floor, allow time to soak if floor is extremely soiled. Wipe clean and let dry. Rinse with clean, warm water, if necessary.  *Do not use Super 10 on waxed surfaces.
		Super 10	Unwaxed surfaces: 1 part Super 10, 128 parts water (1 oz. Super 10 to 1 gallon of water or 8 mL Super 10 to 1 liter of water)	
Garage	Engine Cleaner (Exterior)	Super 10	1 part Super 10, 3 parts water	Spray on while engine is warm, let stand for 15 minutes, then spray again. Agitate with brush and rinse off with water. Repeat if necessary.
Garage	Garage Floors	Super 10	1 part Super 10, 3 parts water	Spray on, agitate with a brush or broom to allow deeper penetration. Let stand for 15-20 minutes, then spray off with water.
Garage	Grease and Oil Spots	LDC	1 part LDC, 3 parts water	Spray on, agitate and let stand for a few minutes, then wipe off.
		Super 10	For more stubborn spots, use 1 part Super 10, 3 parts water	
Garage	Hand Tools	Super 10	1 part Super 10, 3 parts water	Spray on, agitate and let stand for a few minutes, then wipe off.
Home	Enameled Surfaces	Super 10	1 part Super 10, 10 parts water	Spray on and wipe clean. Let stand and blot to remove stains.
Home	Eyeglasses	Green	1-2 drops	Rub into glasses with a wet cloth. Rinse with water, then polish and dry with a dry cloth.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Home	Jewelry	LDC	2 drops LDC in 22 oz/650 mL water	Set jewelry in a bowl or glass and add dilution. Let stand for a few minutes, then pull out, rinse thoroughly, and dry.
Home	Toys	Super 10	¼ teaspoon Super 10 in 22 oz/650 mL water in a spray bottle	Spray on, rinse thoroughly, and wipe clean.
Home	Upholstery (Car Seat Cover Cleaner, Spot Cleaner)	Super 10	1 part Super 10, 10 parts water	Spray affected area and let stand. Blot stained area until clean.
Home	Venetian or Mini-Blinds (non-cloth material)	Super 10	1 part Super 10, 10 parts water	Spray on and wipe clean.
Home	Wallpaper Removal	LDC	3-4 capfuls LDC in 1.5 gallons/5.5 L hot water	Apply with a sponge. Let soak. Scrape off with putty knife.
Home	Walls	LDC	1 part LDC, 3 parts water	Use a small amount of the dilution on a wet sponge. Wipe down surface. Can be used on all washable materials. It will not remove paint unless water alone will remove it. Test painted surfaces with water first.
		Super 10	1 part Super 10, 128 parts water (1 oz./gal or 8 mL/L)	
Home	Windows	LDC	2-5 drops LDC in 22 oz/650 mL water in a spray bottle	Spray on surface and wipe clean.
		Super 10	3 drops Super 10 in 22 oz/650 mL water in a spray bottle	
Kitchen	Cabinets and Shelves	LDC	1 part LDC, 5 parts water	Spray on and wipe down surface. Use a small amount of the dilution on a wet sponge for harder to clean areas.
		Super 10	1 part Super 10, 10 parts water	Use a small amount of the dilution on a wet sponge. Wipe down surface. It will not remove paint unless water alone will remove it. Test painted surfaces with water first.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Kitchen	Ceramic Dishes	LDC	½ capful LDC in sink full of water for soaking Use a few drops on a sponge when cleaning dishes	Wash dishes and rinse well.
Kitchen	Chrome Fixtures	LDC	1 part LDC, 5 parts water; or stronger as needed	Spray on and wipe clean.
		Super 10	For tough stains: 1 part Super 10, 10 parts water	
Kitchen	Flatware	LDC	½ capful in sink full of water for soaking Use a few drops on a sponge when cleaning dishes	Wash flatware and rinse well.
Kitchen	Fruits and Vegetables	Green	1 pump	Fill sink with water, add either Green or LDC. Let produce soak in solution for a few minutes. Will suspend crop oils and insecticides from produce. Rinse thoroughly with water. Dry and store normally.
		LDC	3-4 drops LDC in a sink full of water	
Kitchen	Glassware	LDC	½ capful LDC in sink full of water for soaking Use a few drops on a sponge when cleaning dishes	Wash glassware and rinse well.
Kitchen	Kitchen Appliances (including Stainless Steel)	LDC	1 part LDC, 5 parts water; or stronger as needed	Spray or wipe on with a damp cloth. Wipe dry.
		Super 10	1 part Super 10, 10 parts water; or stronger as needed	Spray on and wipe clean. If needed, let stand for a few minutes for tough stains.
Kitchen	Kitchen or Bathroom Countertops—Ceramic, Formica, Granite, Stainless Steel, Marble, Aluminum, Tile	Super 10	1 part Super 10, 10 parts water	Spray on and wipe clean.
Kitchen	Kitchen or Bathroom Countertops—Grout	Super 10	1 part Super 10, 3 parts water	Spray on and let stand for a few minutes. Clean with old toothbrush or small brush. Wipe clean with a cloth.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Kitchen	Ovens	Super 10	1 part Super 10, 3 parts water	Heat oven to approximately 200° F, then turn off the oven. Spray on until oven walls are saturated, let stand for 10-15 minutes, then wipe clean.
Kitchen	Pots and Pans	Super 10	A few drops Super 10 on a sponge	Wash pots and pans as usual and rinse well.
			(Presoak) 1 part Super 10, 10 parts water	Spray on, agitate and let stand for a few minutes, then wipe off.
Kitchen	Range Hoods	Super 10	1 part Super 10, 3 parts water	Spray on, let stand for a few minutes, then wipe off.
Kitchen	Stainless Steel Appliances	Super 10	1 part Super 10, 10 parts water	Spray on and wipe clean.
Kitchen	Stovetops	Super 10	1 part Super 10, 10 parts water For tough stains, use up to 1 part Super 10, 3 parts water	Spray on and wipe clean. If needed, let stand for a few minutes for tough stains.
Laundry	Clothing Stain Remover (for blood, meat, wine, gravy, egg)	G-One	See CLEANING INSTRUCTIONS column for specific measurements	If stain is fresh, soak in cold water, then pre-treat with Super 10 dilution and wash. If dry, pre-treat with Super 10 dilution and soak in 1 scoop G-One for 1 hour. Pre-treat again and wash as usual with G-One.
		Super 10	1 part Super 10, 10 parts water; or stronger as needed	
Laundry	Clothing Stain Remover (for grass, greenery)	G-One	See CLEANING INSTRUCTIONS column for specific measurements	Soak in warm water with 1 scoop G-One for 1 hour. Pre-treat with Super 10 dilution, then wash as usual with G-One.
		Super 10	1 part Super 10, 10 parts water; or stronger as needed	

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Laundry	Clothing Stain Remover (for heavy greasy stains, machine oil, butter, margarine, vegetable oil)	Super 10	1 part Super 10, 10 parts water; or stronger as needed	Pre-treat stains with dilution. Wash in hottest water suitable for fabric. If extremely soiled, use 1 scoop more of G-One. Wash as usual with G-One.
Laundry	Clothing Stain Remover (for ink, crayon, lipstick, ground-in dirt and grime, tomato stains, tar, wax)	Super 10	1 part Super 10, 10 parts water	Pre-treat stains with dilution; spray affected area and let stand. Blot stained area, rinse thoroughly, and wipe clean. Then do laundry as normal. Check for colorfastness.
Laundry	Clothing Stain Remover (for milk, ice cream, pudding, baby formula)	Super 10	1 part Super 10, 10 parts water; or stronger as needed	Pre-treat stains with dilution. Soak for 1 hour in warm water, then wash. For dried stains, soak overnight in dilution, then wash as usual with G-One.
Laundry	Fabric—Cotton, Lycra®, Nylon, Polyester, Rayon, Spandex®	LDC	½ capful LDC in a sink full of water	Fill a basin or sink with cool water, add LDC. Add clothes, let soak, and rinse well.
Laundry	Fabric—Delicates, Fine Cottons, Knitwear, Linen, Synthetics, Wool	G-One	1/8 of a scoop	Fill a basin or sink with cool water, add either G-One, Green, or LDC. Add clothes and wash as usual. Agitate and work gently through fabric. Rinse thoroughly twice and allow to air dry.
		Green	1 teaspoon Green per quart/liter of cold water	
		LDC	½ capful LDC in a sink full of cold water	
Laundry	Washing Machine: Front Loading Tumbler	G-One	Soft Water (0-60 ppm): 1 scoop Moderately Hard Water (61-120 ppm): 1-2 scoops Hard Water (121-180 ppm): 2-3 scoops Very Hard Water (181+ ppm): 3+ scoops	Set to washing cycle.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Laundry	Washing Machine: High Efficiency	G-One	Soft Water (0-60 ppm): ¾-1 scoop Moderately Hard Water (61-120 ppm): 1-1½ scoops Hard Water (121-180 ppm): 1-2 scoops Very Hard Water (181+ ppm): 2+ scoops	Set to washing cycle.
Laundry	Washing Machine: Top Loading Agitator	G-One	Soft Water (0-60 ppm): 2 scoops Moderately Hard Water (61-120 ppm): 2-3 scoops Hard Water (121-180 ppm): 3-4 scoops Very Hard Water (181+ ppm): 4+ scoops	Set to washing cycle.
Living Room	Dusting	LDC	½ teaspoon LDC per quart/liter of water	Spray on and wipe off dust with a nearly dry sponge or clean cloth.
		Super 10	3 drops of Super 10 per 22 oz/650 mL water in a spray bottle	
Living Room	Fireplaces	Super 10	1 part Super 10, 3 parts water	First, remove all dust, soot, and debris using a nylon brush and water. Then dip the nylon brush into the bucket with the dilution. Use the dilution to scrub the walls and floor of the fireplace until they are clean. Rinse the floor and walls with clean water and let dry.
Living Room	Imitation Leather/Vinyl	Super 10	1 part Super 10, 20 parts water	Spray on and wipe clean.
Living Room	Woodwork	LDC	1 part LDC, 5 parts water	Spray on and wipe down surface. Use a small amount of the dilution on a wet sponge for harder to clean areas.
		Super 10	1 part Super 10, 20 parts water	Spray on and wipe clean.
Outside Home	Barbecue Grills	Super 10	1 part Super 10, 3 parts water	Spray on, agitate and let stand for a few minutes, then wipe off.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Outside Home	Driveway	Super 10	1 part Super 10, 3 parts water	Spray on, agitate with a brush or broom to allow deeper penetration. Let stand for 15-20 minutes, then spray off with water.
Outside Home	Garbage Cans	Super 10	1 part Super 10, 10 parts water; or stronger as needed	Spray on and rinse off with water.
Outside Home	Gardening & Weed Spraying	Green	4 teaspoons Green per quart/liter of water	Spray rose bushes and plants to protect from red spiders and diseases.
		LDC	1 capful LDC per quart/liter of weed killer solution	Spray weeds. LDC helps penetrate the ground more deeply and carry weed killer to the roots.
Outside Home	Patio Furniture	Super 10	1 part Super 10, 3 parts water	Spray on, agitate and let stand for a few minutes, then rinse off with water.
Outside Home	Plastic Containers and Surfaces (non-food)	Super 10	¼ teaspoon Super 10 in 22 oz/650 mL water in a spray bottle	Spray on and wipe clean.
Outside Home	Rust	Super 10	1 part Super 10, 10 parts water	Spray on, let stand for a few minutes, then scrub with steel wool as needed, then wipe off.
Outside Home	Tar on Hard Surfaces	Super 10	1 part Super 10, 3 parts water	Spray on, let stand for a 15-20 minutes, then wipe off.
Outside Home	Wheels	Super 10	1 part Super 10, 3 parts water	Spray on, agitate and let stand for a few minutes, then rinse off with water.

LOCATION	SURFACE	PRODUCT	MEASUREMENTS	CLEANING INSTRUCTIONS
Personal	Skin	Green	Small amount, 2 pumps	Hand washing: Lather, rinse thoroughly with water.
		Green	2 teaspoons	Bathing: Use 2 teaspoons to running water in a bathtub.
		Green	A few drops	Invisible glove: Apply to dry hands before tackling dirty jobs. Let dry. When you're done, simply rinse hands with water, using additional Green as necessary.
